MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
MARCH 31, 2017

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation, a Maryland corporation, together with its consolidated subsidiaries (MREIC, the Company, or we), operates as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. As of March 31, 2017, the Company owned one hundred properties with total square footage of approximately 16,554,000, which was 100% occupied, as compared to ninety-nine properties with total square footage of approximately 16,010,000, which was 99.6% occupied as of September 30, 2016. These properties are located in thirty states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Washington and Wisconsin. The Company also owns a portfolio of REIT investment securities, which the Company generally limits to no more than approximately 10% of its undepreciated assets (which is the Company's total assets excluding accumulated depreciation).

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code of 1986, as amended (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in several of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with Accounting Principles Generally Accepted in the United States of America (U.S. GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended March 31, 2017 are not necessarily indicative of the results that may be expected for the year ending September 30, 2017. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company's annual report on Form 10-K for the fiscal year ended September 30, 2016.

Use of Estimates

In preparing the financial statements in accordance with U.S. GAAP, management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods and related disclosure of contingent assets and liabilities. Actual results could differ from these estimates and assumptions.

Reclassification

Certain prior period amounts in the accompanying Consolidated Financial Statements have been reclassified to conform to the current period's presentation.

Lease Termination Income

Lease Termination Income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company.

Table of Contents

Of the Company's one hundred properties, only four leases contain an early termination provision. The Company's leases with early termination provisions are the 26,340 square foot location in Ridgeland (Jackson), MS, the 38,333 square foot location in Rockford, IL, the 83,000 square foot location in Roanoke, VA and the 102,135 square foot location in O'Fallon (St. Louis), MO. Each lease termination provision contains certain requirements that must be met in order to exercise each termination provision. These requirements include; date termination can be exercised, the time frame that notice must be given by the tenant to the Company and the termination fee that would be required to be paid by the tenant to the Company. The total potential termination fee of the four leases with a termination provision amounts to approximately \$1,709,000.

Stock Compensation Plan

The Company's Stock Option and Stock Award Plan, adopted in 2007 and amended and restated in 2010 (the 2007 Plan), authorized the grant to officers and key employees of options to purchase up to 1,500,000 shares of common stock, \$0.01 par value per share (common stock), including up to 100,000 shares of restricted stock awarded to any one participant in any one fiscal year. The 2007 Plan expired on March 26, 2017. On March 13, 2017, upon recommendation of the Compensation Committee of the Board, the Board approved the Amended and Restated 2007 Incentive Award Plan, or the "Plan", conditioned upon shareholder approval. At the Company's Annual Meeting on May 18, 2017, the Company's common shareholders will be asked to consider and vote on a proposal to approve the Plan. The Plan constitutes an amendment and restatement of the 2007 Plan, which was initially approved by the Company's shareholders on July 26, 2007, and was subsequently amended and restated and approved by the Company's shareholders on May 6, 2010. 164,878 shares of common stock remained available for grant under the 2007 Plan and, if approved by the Company's shareholders, the Plan will provide an additional 1,600,000 shares, for a total of 1,764,878 shares of common stock available for future grant of stock options, restricted stock, or other equity based awards, plus any shares subject to outstanding options that expire or are forfeited without being exercised.

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, "Compensation-Stock Compensation". ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. The amortization of compensation costs for stock option grants and restricted stock are included in General and Administrative Expenses in the accompanying Consolidated Statements of Income and amounted to \$166,190 and \$101,968 for the three months ended March 31, 2017 and 2016, respectively and amounted to \$266,345 and \$206,928 for the six months ended March 31, 2017 and 2016, respectively.

During the six months ended March 31, 2017 and 2016, the following stock options, which vest one year after grant date, were granted under the Company's 2007 Plan:

Date of Grant	Number of Employees	Number of Shares	Option Price	Expiration Date
01/4/17	1	65,000	\$ 15.04	01/4/25
12/9/16	10	215,000	\$ 14.24	12/9/24
01/5/16	1	65,000	\$ 10.37	01/5/24

Table of Contents

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions used for grants in the fiscal year indicated:

	<u>Fiscal 2017</u>	<u>Fiscal 2016</u>
Dividend yield	4.44%	6.17%
Expected volatility	18.84%	20.20%
Risk-free interest rate	2.26%	2.09%
Expected lives (years)	8	8
Estimated forfeitures	-0-	-0-

The weighted-average fair value of options granted during the six months ended March 31, 2017 and 2016 was \$1.49 and \$0.74 per option, respectively.

During the six months ended March 31, 2017 and 2016, no shares of restricted stock were granted under the Company's 2007 Plan. During the six months ended March 31, 2016, five participants exercised options to purchase an aggregate of 180,000 shares of common stock at a weighted average exercise price of \$7.84 per share for total proceeds of \$1,412,050. During the six months ended March 31, 2017, no options were exercised. Recent Accounting Pronouncements

In January 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business". ASU 2017-01 seeks to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, intangible assets and consolidation. The adoption of ASU 2017-01 is effective for annual periods beginning after December 15, 2017, including interim periods within those periods. The amendments should be applied prospectively on or after the effective dates. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments". ASU 2016-15 will make eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2017. Early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In March 2016, the FASB issued ASU 2016-09 "Compensation – Stock Compensation: Improvements to Employee Share-Based Payment Accounting, which relates to the accounting for employee share-based payments". ASU 2016-09 addresses several aspects of the accounting for share-based payment award transactions, including: (a) income tax consequences; (b) classification of awards as either equity or liabilities; and (c) classification on the statement of cash flows. This standard will be effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

In February 2016, the FASB issued ASU 2016-02, "Leases". ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

Table of Contents

In January 2016, the FASB issued ASU 2016-01, “Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities”. ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. These changes become effective for the Company’s fiscal year beginning October 1, 2018. The Company is currently in the process of evaluating the impact of the adoption on its consolidated financial statements and has not determined the effects of this update on the Company’s financial position, results of operations or cash flows and disclosures at this time.

In April 2015, the FASB issued ASU 2015-03, “Interest - Imputation of Interest (Topic 835): Simplifying the Presentation of Debt Issuance Costs”. ASU 2015-03 requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of the debt liability. In August 2015, the FASB issued ASU 2015-15, “Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements” (Subtopic 835-30), which clarified that debt issuance costs related to line-of-credit arrangements may be presented as an asset and amortized over the term of the line-of-credit arrangement regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. The Company adopted these standards effective October 1, 2016. As a result, debt issuance costs related to debt liabilities that are not line-of-credit arrangements are included as a direct deduction from the related debt liability and those related to line-of-credit arrangements continue to be included as an asset on the accompanying Consolidated Balance Sheets. The effects of this standard were applied retrospectively to all prior periods presented. The effect of the change in accounting principle was the reduction in the amount of \$6,272,143 of the Fixed Rate Mortgage Notes Payable liability and a corresponding reduction of the Financing Costs asset as of September 30, 2016 and a reclassification of Amortization of Financing Costs of \$238,671 and \$473,038 for the three and six months ended March 31, 2016, respectively to Interest Expense, net of Amortization of Financing Costs in our Consolidated Statement of Income.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

Segment Reporting & Financial Information

The Company’s primary business is the ownership and management of real estate properties. The Company seeks to invest in well-located, modern, single-tenant, industrial buildings leased primarily to investment grade tenants or their subsidiaries on long-term net leases. The Company reviews operating and financial information for each property on an individual basis and, therefore, each property represents an individual operating segment. The Company evaluates financial performance using Net Operating Income (“NOI”) from property operations. NOI is defined as recurring Rental and Reimbursement Revenue, less Real Estate Taxes and Operating Expenses, such as insurance, utilities and repairs and maintenance. The Company has aggregated the properties into one reportable segment as the properties share similar long-term economic characteristics and have other similarities, including the fact that they are operated as industrial properties subject to long-term net leases primarily to investment grade tenants or their subsidiaries.

NOTE 2 – NET INCOME PER SHARE

Basic Net Income per Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding during the period. For the diluted weighted average shares outstanding for the three months ended March 31, 2017 and 2016, 65,000 options to purchase shares of common stock were antidilutive. For the diluted weighted average shares outstanding for the six months ended March 31, 2017 and 2016, 280,000 and 65,000 options to purchase shares of common stock, respectively, were antidilutive.

Pro forma information

The following unaudited pro forma condensed financial information has been prepared utilizing the historical financial statements of the Company and the effect of additional revenue and expenses generated from property acquired and expanded during fiscal 2017 and 2016, assuming that the acquisitions and completed expansions had occurred as of October 1, 2015, after giving effect to certain adjustments including (a) Rental Revenue adjustments resulting from the straight-lining of scheduled rent increases, (b) Interest Expense resulting from the assumed increase in Fixed Rate Mortgage Notes Payable and Loans Payable related to the new acquisitions, and (c) Depreciation Expense related to the new acquisitions. In addition, Net Income Attributable to Common Shareholders excludes the operating expenses incurred during fiscal 2017 and 2016 for the one vacant property, located in White Bear Lake, MN, that was sold during the six months ended March 31, 2017 on October 27, 2016. Furthermore, the proceeds raised from the Dividend Reinvestment and Stock Purchase Plan (the DRIP) were used to fund property acquisitions and expansions and therefore, the weighted average shares outstanding used in calculating the Basic and Diluted Net Income per Share Attributable to Common Shareholders has been adjusted to account for the increase in shares raised through the DRIP, as if all the shares raised had occurred on October 1, 2015. The unaudited pro forma condensed financial information is not indicative of the results of operations that would have been achieved had the acquisitions and expansions reflected herein been consummated on the dates indicated or that will be achieved in the future.

The remaining proceeds were used to reduce the amount outstanding under the Company's revolving credit facility and will be used to purchase properties and fund expansions of existing properties in the ordinary course of its business and for general corporate purposes. NOTE 7 - FAIR VALUE MEASUREMENTS

The Company measures certain financial assets and liabilities at fair value on a recurring basis, including Securities Available for Sale at Fair Value. The Company's financial assets consist mainly of marketable REIT securities. The fair value of these financial assets was determined using the following inputs at March 31, 2017 and September 30, 2016:

	Fair Value Measurements at Reporting Date Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
As of March 31, 2017:				
Equity Securities – Preferred Stock	\$ 13,606,625	\$ 13,606,625	\$ -0-	\$ -0-
Equity Securities – Common Stock	85,793,857	85,793,857	-0-	-0-
Mortgage Backed Securities	4,928	4,928	-0-	-0-
Total Securities Available for Sale at Fair Value	\$ 99,405,410	\$ 99,405,410	\$ -0-	\$ -0-
As of September 30, 2016:				
Equity Securities – Preferred Stock	\$ 13,769,073	\$ 13,769,073	\$ -0-	\$ -0-
Equity Securities – Common Stock	59,830,271	59,830,271	-0-	-0-
Mortgage Backed Securities	5,550	5,550	-0-	-0-
Total Securities Available for Sale at Fair Value	\$ 73,604,894	\$ 73,604,894	\$ -0-	\$ -0-

In addition to the Company's investments in Securities Available for Sale at Fair Value, the Company is required to disclose certain information about fair values of its other financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's other financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only, and therefore cannot be compared to the historical accounting model. The use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of Cash and Cash Equivalents approximates their current carrying amounts since all such items are short term in nature. The fair value of variable rate Loans Payable approximates their current carrying amounts, since such amounts payable are at approximately a weighted-average current market rate of interest. The estimated fair value of Fixed Rate Mortgage Notes Payable is based on discounting the future cash flows at a yearend risk adjusted borrowing rate currently available to the Company for issuance of debt with similar terms and remaining maturities. These fair value measurements fall within level 2 of the fair value hierarchy. At March 31, 2017, the Fixed Rate Mortgage Notes Payable fair value (estimated based upon expected cash outflows discounted at current market rates) amounted to approximately \$493,348,000 and the carrying value amounted to \$484,047,676. When the Company acquires a property, it is required to fair value all of the assets and liabilities, including intangible assets and liabilities, relating to the properties acquired lease (See Note 3). Those fair value measurements are estimated based on independent third party appraisals and fall within level 3 of the fair value hierarchy.

NOTE 8 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the six months ended March 31, 2017 and 2016 was approximately \$12,108,000 and \$10,430,000, respectively.

NOTE 9 – CONTINGENCIES AND COMMITMENTS

Subject to satisfactory due diligence, we anticipate closing these eight transactions during the remainder of fiscal 2017 and the first half of fiscal 2018. ITEM 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**Overview and Recent Activity**

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2016.

The Company operates as a Real Estate Investment Trust (REIT). The Company seeks to invest in well-located, modern single-tenant industrial buildings leased primarily to investment grade tenants or their subsidiaries on long-term net leases. During the six months ended March 31, 2017, the Company purchased two net-leased industrial properties, located in Hamburg (Buffalo), NY and Ft. Myers, FL, totaling approximately 552,000 square feet, for approximately \$56,102,000. In connection with the two properties acquired during the six months ended March 31, 2017, the Company entered into two, fifteen year fully-amortizing mortgage loans. The two mortgage loans originally totaled \$38,000,000 and have a weighted average interest rate of 4.01%. As of March 31, 2017, the Company owned one hundred properties with total square footage of approximately 16,554,000. These properties are located in thirty states. As of the quarter ended March 31, 2017, the Company’s weighted average lease maturity was approximately 7.4 years, its occupancy rate was 100% and its annualized average base rent per occupied square foot was \$5.79. As of March 31, 2017, the weighted average age based on the square footage of the Company’s buildings was 10.0 years. In addition, total gross real estate investments, excluding marketable REIT securities investments of \$99,405,410, were \$1,224,207,318 as of March 31, 2017. Net Operating Income (“NOI”) from property operations is defined as Net Income Attributable to Common Shareholders plus Preferred Dividends, General & Administrative Expenses, Acquisitions Costs, Depreciation, Amortization of Capitalized Lease Costs & Intangible Assets and Interest Expense, including Amortization of Financing Costs, less Dividend and Interest Income and Gain on Sale of Securities Transactions. The components of NOI are recurring Rental and Reimbursement Revenue, less Real Estate Taxes and Operating Expenses, such as insurance, utilities and repairs and maintenance. NOI from property operations increased \$3,980,261, or 21%, for the three months ended March 31, 2017 as compared to the three months ended March 31, 2016 and increased \$8,304,562, or 22%, for the six months ended March 31, 2017 as compared to the six months ended March 31, 2016. These increases were due to the additional income related to eight industrial properties purchased during fiscal 2016 and two industrial properties purchased during the six months ended March 31, 2017.

The Company’s NOI for the three and six months ended March 31, 2017 and 2016 is calculated as follows:

See PART I, Item 1 – Business in the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2016 for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities, challenges, and risks on which the Company is focused.

Significant Accounting Policies and Estimates

The discussion and analysis of the Company’s financial condition and results of operations are based upon the Company’s Consolidated Financial Statements, which have been prepared in accordance with Accounting Principles Generally Accepted in the United States of America (U.S. GAAP). The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the Company’s Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, management evaluates our assumptions, judgments and estimates. Management believes there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” in our annual report on Form 10-K for fiscal year ended September 30, 2016.

Changes in Results of Operations

As of March 31, 2017, the Company owned one hundred properties with total square footage of approximately 16,554,000, as compared to ninety-four properties with total square footage of approximately 14,551,000, as of March 31, 2016, representing an increase of 14%. At quarter end, the Company’s weighted average lease expiration term was approximately 7.4 years as compared to 7.0 years at the end of the prior year period. The Company’s occupancy rate was 100% as of March 31, 2017 as compared to 99.6% as of March 31, 2016, representing an increase of 40 basis points. The Company’s weighted average building age was 10.0 years as of March 31, 2017 as compared to 10.4 years as of March 31, 2016.

Fiscal 2017 Renewals

In fiscal 2017, approximately 9% of our gross leasable area, representing thirteen leases totaling 1,539,526 square feet, were set to expire. As of the date of this quarterly report, nine of the thirteen leases have renewed. One of the nine leases, (which is with FedEx Ground Package System, Inc. for a property located in Ft. Myers, FL), has renewed for only eight months because the tenant is in the process of moving its operations from our 87,500 square foot facility to our newly constructed facility, which is also located in Ft. Myers, FL. As discussed above, on December 30, 2016, we purchased this newly constructed 213,672 square foot industrial building which is leased for ten years through September 2026. Excluding the eight month lease renewal at the original Ft. Myers, FL location, the eight leases that have renewed thus far represent 1,237,406 square feet, or 80% of the expiring square footage, and have a weighted average lease term of 6.4 years.

[Table of Contents](#)

We have incurred or we expect to incur tenant improvement costs of approximately \$2,934,000 and leasing costs of approximately \$1,140,000 in connection with these eight lease renewals. The table below summarizes the lease terms of the nine leases which were renewed. In addition, the table below includes both the tenant improvement costs and the leasing costs, which are presented on a per square foot (PSF) basis averaged over the renewal term.

Excluding the eight-month lease renewal at the original Ft. Myers, FL location, representing 5.7% of the space coming up for renewal in fiscal 2017, the remaining eight lease renewals result in a weighted average term of 6.4 years and a U.S. GAAP straight-line weighted average lease rate of \$5.53 per square foot. The renewed weighted average initial cash rent per square foot is \$5.42. This compares to the former weighted average rent of \$5.59 per square foot on a U.S. GAAP straight-line basis and the former weighted average cash rent of \$5.66 per square foot, representing a decrease in the weighted average lease rate of 1.1% on a U.S. GAAP straight-line basis and a decrease in the weighted average lease rate of 4.2% on a cash basis. Of the four remaining leases that are set to expire, we have been informed by one tenant that they will not be renewing. This tenant leases a 36,270 square feet facility in Urbandale, IA. This facility represents 2% of the space that was up for renewal in fiscal 2017. This tenant is currently leasing our space on a month-to-month basis. The remaining three leases that are still set to expire during fiscal 2017 are currently under discussion.

Rental Revenue increased \$3,999,962, or 20%, for the three months ended March 31, 2017 as compared to the three months ended March 31, 2016. The REIT securities portfolio's weighted average yield for six months ended March 31, 2017 was approximately 7.5% as compared to 8.7% for the six months ended March 31, 2016.

Table of Contents

Net Real Estate Investments increased \$39,776,109 from September 30, 2016 to March 31, 2017. This increase was mainly due to the purchase of two net-leased industrial properties, located in Hamburg (Buffalo), NY and Ft. Myers, FL, totaling approximately \$56,102,000, of which \$55,650,000 was allocated to Net Real Estate Investments. The increase was partially offset by Depreciation Expense for the six months ended March 31, 2017 of \$14,131,572.

Securities Available for Sale increased \$25,800,516 from September 30, 2016 to March 31, 2017. The increase was due to the purchase of securities totaling \$29,305,625, offset by the sale of securities with a cost basis of \$2,933,131, which resulted in realized gains totaling \$806,108 and by a net decrease in Unrealized Holding Gains of \$571,978.

Fixed Rate Mortgage Notes Payable, net of Unamortized Debt Issuance Costs (Mortgage Notes Payable) increased \$122,295 from September 30, 2016 to March 31, 2017. The weighted average interest rate on these two fixed rate mortgages is 4.01%. Details on these two fixed rate mortgages are as follows:

<u>Property</u>	<u>Mortgage amount</u>	<u>Maturity Date</u>	<u>Interest Rate</u>
Hamburg (Buffalo), NY	\$ 23,500,000	11/1/2031	4.03%
Ft. Myers, FL	14,500,000	1/1/2032	3.97%

The increase in Mortgage Notes Payable was also partially due to the amortization of financing costs associated with the Mortgage Notes Payable of approximately \$481,000. This increase was partially offset by scheduled payments of principal of approximately \$37,700,000, which includes the full repayment of the Company's nine mortgages associated with eight properties located in Jacksonville, FL; El Paso, TX; Lebanon, OH; Halfmoon, NY; Bedford Heights, OH; Hanahan, SC; Elgin, IL and Kansas City, MO totaling approximately \$21,174,000. Subsequent to the quarter end, on May 1, 2017, the Company fully repaid three mortgage loans associated with three properties located in Chattanooga, TN; Roanoke, VA and Orion, MI totaling approximately \$12,014,000.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities from its investment portfolio, borrow on its unsecured line of credit facility or securities margin loans, refinance debt, or raise capital through the DRIP or capital markets.

The Company has been raising capital through its DRIP, mortgage loans, draws on its unsecured line of credit, sale of marketable securities and funds generated from its investments in net-leased industrial properties, as well as the issuance of additional shares of Series C Preferred Stock. The Company may raise capital through registered direct placements and public offerings of common and preferred stock. The Company believes that funds generated from operations and from the DRIP, together with the ability to finance and refinance its properties, and availability under its unsecured line of credit, will provide sufficient funds to adequately meet its obligations over the next year.

The Company has a concentration of FDX and FDX subsidiary-leased properties, consisting of fifty-five separate stand-alone leases covering approximately 8,187,000 square feet as of March 31, 2017 and forty-nine separate stand-alone leases covering approximately 6,508,000 square feet as of March 31, 2016. The fifty-five separate stand-alone leases that are leased to FDX and FDX subsidiaries have a weighted average lease maturity of 7.8 years. The percentage of FDX and its subsidiaries leased square footage to the total of the Company's rental space was 49% (6% to FDX and 43% to FDX subsidiaries) as of March 31, 2017 and 45% (7% to FDX and 38% to FDX subsidiaries) as of March 31, 2016. As of March 31, 2017, the only tenants that leased 5% or more of the Company's total square footage were FDX and its subsidiaries and Milwaukee Electric Tool Corporation, which leases one property through July 2028 consisting of approximately 862,000 square feet, which was approximately 5% of the Company's rental space. As of March 31, 2016, no other tenant, other than FDX and its subsidiaries, accounted for 5% or more of the Company's total rental space.

Annualized Rental and Reimbursement Revenue from FDX and its subsidiaries is estimated to be approximately 59% (6% to FDX and 53% to FDX subsidiaries) of total Rental and Reimbursement Revenue for fiscal 2017 and was 56% (7% to FDX and 49% to FDX subsidiaries) of total Rental and Reimbursement Revenue for fiscal 2016. No other tenant accounted for 5% or more of the Company's total Rental and Reimbursement Revenue for the six months ended March 31, 2017 and 2016.

In addition to real estate property holdings, the Company held \$99,405,410 in marketable REIT securities at March 31, 2017, representing 7.2% of the Company's undepreciated assets (which is the Company's total assets excluding accumulated depreciation). These liquid real estate holdings are not included in calculating the tenant concentration ratios above and therefore further enhance the Company's diversification. The securities portfolio provides the Company with additional liquidity, diversification, income and serves as a proxy for real estate when more favorable risk adjusted returns are not available.

In addition to the property purchased subsequent to the quarter end, as described previously, the Company has entered into agreements to purchase eight new build-to-suit, industrial buildings that are currently being developed in Florida, North Carolina, Ohio, Oklahoma, South Carolina and Texas, totaling approximately 1,998,000 square feet with net-leased terms ranging from seven to fifteen years, resulting in a weighted average lease maturity of 13.3 years. The aggregate purchase price for the eight properties is approximately \$219,158,000. Five of the eight purchase commitments, consisting of approximately 1,353,000 square feet, or 68%, are leased to investment grade tenants or their subsidiaries. Approximately 1,054,000 square feet, or 53%, are leased to FDX and its subsidiaries. Subject to satisfactory due diligence, we anticipate closing these eight transactions during the remainder of fiscal 2017 and the first half of fiscal 2018. In connection with the eight properties, the Company has entered into commitments to obtain eight mortgage loans totaling approximately \$143,534,000 at fixed rates ranging from 3.60% to 4.45%, with a weighted average interest rate of 3.89%. Seven of these mortgage loans are fifteen year, fully-amortizing loans and one of these mortgage loans is a twelve year, fully-amortizing loan, resulting in a weighted average loan term of 14.9 years.

The Company intends to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants or their subsidiaries, and when needed, expand its current properties. The funds may come from free cash flow from operations, mortgage loans, draws on our unsecured line of credit, cash on hand, sale of marketable securities, other bank borrowings, proceeds from the DRIP, private placements and public offerings of additional common or preferred stock or other securities. To the extent that funds or appropriate properties are not available, fewer acquisitions will be made.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations and Core Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by the National Association of Real Estate Investment Trusts (NAREIT), represents net income attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (U.S. GAAP), excluding extraordinary items, as defined under U.S. GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-U.S. GAAP supplemental measure of REIT operating performance. We define Core Funds From Operations (Core FFO) as FFO, excluding acquisition costs. We define Adjusted Funds from Operations (AFFO) as Core FFO, excluding stock compensation expense, depreciation of corporate office tenant improvements, amortization of financing costs, lease termination income, net gain or loss on sale of securities transactions, effect of non-cash U.S. GAAP straight-line rent adjustments, non-recurring other expenses and less recurring capital expenditures. We define recurring capital expenditures as all capital expenditures, excluding capital expenditures related to expansions at our current locations or capital expenditures that are incurred in conjunction with obtaining a new lease or a lease renewal. We believe that, as widely recognized measures of performance used by other REITs, FFO, Core FFO and AFFO may be considered by investors as supplemental measures to compare our operating performance to those of other REITs. FFO, Core FFO and AFFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. However, other REITs may use different methodologies to calculate FFO, Core FFO and AFFO and, accordingly, our FFO, Core FFO and AFFO may not be comparable to all other REITs. The items excluded from FFO, Core FFO and AFFO are significant components in understanding the Company's financial performance.

FFO, Core FFO and AFFO (i) do not represent Cash Flow from Operations as defined by U.S. GAAP; (ii) should not be considered as an alternative to Net Income or Net Income Attributable to Common Shareholders as a measure of operating performance or to Cash Flows from Operating, Investing and Financing Activities; and (iii) are not an alternative to Cash Flows from Operating, Investing and Financing Activities as a measure of liquidity. FFO, Core FFO and AFFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

The forward-looking statements are based on the Company's beliefs, assumptions and expectations of its future performance, taking into account all information currently available to the Company. Forward-looking statements are not predictions of future events. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to the Company. Some of these factors are described below and are described under the above heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" above and the headings "Business", "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2016. New risks and uncertainties arise over time, and it is not possible for the Company to predict those events or how they may affect the Company. Except as required by law, the Company is not obligated to, and does not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Important factors that could cause actual results to differ materially from the Company's expectations include, among others:

- the ability of the Company's tenants to make payments under their respective leases, its reliance on certain major tenants and the Company's ability to re-lease properties that are currently vacant or that become vacant;
- the Company's ability to obtain suitable tenants for its properties;
- changes in real estate market conditions, economic conditions in the industrial sector and the market in which the Company's properties are located and general economic conditions;
