MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
DECEMBER 31, 2017

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation, a Maryland corporation, together with its consolidated subsidiaries (MREIC, the Company, or we), operates as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. As of December 31, 2017, the Company owned 108 properties with total square footage of approximately 19,096,000, which was 99.5% occupied, as compared to 108 properties with total square footage of approximately 18,790,000, which was 99.3% occupied as of September 30, 2017. These properties are located in 30 states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Washington and Wisconsin. As of the quarter ended December 31, 2017, the Company's weighted average lease maturity was approximately 7.9 years and its annualized average base rent per occupied square foot was \$5.99. As of December 31, 2017, the weighted average building age, based on the square footage of the Company's buildings, was 9.1 years. The Company also owns a portfolio of REIT investment securities, which the Company generally limits to no more than approximately 10% of its undepreciated assets (which is the Company's total assets excluding accumulated depreciation). Total gross real estate investments, excluding marketable REIT securities investments of \$130,431,475, were \$1,484,039,198 as of December 31, 2017.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code of 1986, as amended (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in several of the states in which the Company owns property.

In December 2017, the Tax Cuts and Jobs Act of 2017 (the Act), Code Section 199A, was added to the Code and became effective for tax years beginning after December 31, 2017 and before January 1, 2026. Under the Act, subject to certain income limitations, an individual taxpayer may deduct 20% of the aggregate amount of qualified REIT dividends they receive from their taxable income. Qualified REIT dividends do not include any portion of a dividend received from a REIT that is classified as a capital gain dividend.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with Accounting Principles Generally Accepted in the United States of America (U.S. GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended December 31, 2017 are not necessarily indicative of the results that may be expected for the year ending September 30, 2018. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company's annual report on Form 10-K for the fiscal year ended September 30, 2017.

Use of Estimates

In preparing the financial statements in accordance with U.S. GAAP, management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods and related disclosure of contingent assets and liabilities. Actual results could differ from these estimates and assumptions.

Reclassification

Certain prior period amounts in the accompanying Consolidated Financial Statements have been reclassified to conform to the current period's presentation.

Table of Contents

Lease Termination Income

Lease Termination Income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company.

Two leases that were set to expire during fiscal 2018 were leased to Kellogg Sales Company (Kellogg) at the Company's 65,067 square foot facility located in Kansas City, MO through July 31, 2018 and at the Company's 50,400 square foot facility located in Orangeburg, NY through February 28, 2018. Kellogg informed the Company that it will not be renewing its leases at these two properties. On December 18, 2017, the Company sold its property, located in Kansas City, MO for \$4,900,000, with net sale proceeds to the Company of approximately \$4,602,000 and on December 22, 2017, the Company sold its property, located in Orangeburg, NY for \$6,170,000, with net sale proceeds to the Company of approximately \$5,898,000. The sale of these two properties resulted in a realized gain of approximately \$5,388,000, representing a 105% gain over the depreciated U.S. GAAP basis and a realized net gain on a historic cost undepreciated basis of approximately \$1,804,000, representing a 21% net gain over the Company's historic cost basis. In conjunction with the sale of these two properties, the Company simultaneously entered into a lease termination agreement for each property whereby the Company received a termination fee from Kellogg totaling approximately \$210,000 which represents a weighted average of 80% of the then remaining rent due under each respective lease.

Of the Company's 108 properties, only five locations have leases that contain an early termination provision. The Company's leases with early termination provisions are the 26,340 square foot location in Ridgeland (Jackson), MS, the 36,270 square feet location in Urbandale (Des Moines), IA, the 38,833 square foot location in Rockford, IL, the 83,000 square foot location in Roanoke, VA and the 102,135 square foot location in O'Fallon (St. Louis), MO. Each lease termination provision contains certain requirements that must be met in order to exercise each termination provision. These requirements include: date termination can be exercised, the time frame that notice must be given by the tenant to the Company and the termination fee that would be required to be paid by the tenant to the Company. The total potential termination fee to be paid to the Company from the five leases with termination provisions amounts to approximately \$1,756,000.

Stock Compensation Plan

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, "Compensation-Stock Compensation". ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. The amortization of compensation costs for stock option grants and restricted stock are included in General and Administrative Expenses in the accompanying Consolidated Statements of Income and amounted to \$130,763 and \$100,155 for the three months ended December 31, 2017 and 2016, respectively.

During the three months ended December 31, 2017, no options were granted. During the three months ended December 31, 2016, the following stock options, which vest one year after grant date, were granted under the Company's Plan:

<u>Date of Grant</u>	<u>Number of Employees</u>	<u>Number of Shares</u>	<u>Option Price</u>	<u>Expiration Date</u>
12/9/16	10	215,000	\$ 14.24	12/9/24

Table of Contents

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions used for grants in the fiscal year indicated:

	Fiscal 2017
Dividend yield	4.49%
Expected volatility	18.88%
Risk-free interest rate	2.26%
Expected lives (years)	8
Estimated forfeitures	-0-

The weighted-average fair value of options granted during the three months ended December 31, 2016 was \$1.45 per option.

During the three months ended December 31, 2017 and 2016, 12,500 and -0- shares of restricted stock were granted. During the three months ended December 31, 2017, two participants exercised options awarded under the Plan to purchase an aggregate of 20,000 shares of common stock at a weighted average exercise price of \$14.24 per share for total proceeds of \$284,800. During the three months ended December 31, 2016, no options were exercised. As of December 31, 2017, a total of 1,740,542 shares were available for grant as stock options, as restricted stock, or other equity based awards, plus any shares subject to outstanding options that expire or are forfeited without being exercised, and there were outstanding options to purchase 650,000 shares. The aggregate intrinsic value of options outstanding as of December 31, 2017 was \$3,981,900.

Recent Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-02, "Leases". ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. The Company is continuing to evaluate the potential impact this standard may have on the consolidated financial statements and the timing of adoption. The most significant changes for the Company related to lessor accounting under ASU 2016-02 include bifurcating its revenue into lease and non-lease components and the new standard's narrow definition of initial direct costs for leases. Since the Company's revenue is primarily derived from leasing activities from long-term net leases and since the Company currently does not capitalize indirect costs for leases, the Company believes it will continue to account for its leases and related leasing costs in substantially the same manner as it currently does once the adoption of the ASU 2016-02 becomes effective.

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities". ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. These changes become effective for the Company's fiscal year beginning October 1, 2018. The Company is currently in the process of evaluating the impact of the adoption on its consolidated financial statements and has not determined the effects of this update on the Company's financial position, results of operations or cash flows and disclosures at this time. The Company anticipates that the most significant change for the Company, once ASU 2016-01 is adopted, will be the accounting for the Company's investments in marketable securities classified as available for sale, which are currently carried at fair value with unrealized holding gains and losses being excluded from earnings and reported as a separate component of Shareholders' Equity until realized and the change in net unrealized holding gains and losses being reflected as comprehensive income (loss). Under ASU 2016-01, these marketable securities will continue to be measured at fair value, however the changes in net unrealized holding gains and losses will be recognized through net income.

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers”. The FASB issued further guidance in ASU 2016-12, “Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients”, that provides clarifying guidance in certain narrow areas and adds some practical expedients. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The effective date of ASU 2014-09 was extended by one year by ASU 2015-14, “Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date”. The new standard is effective for the first interim period within annual reporting periods beginning after December 15, 2017. Therefore, the Company expects to adopt the standard effective October 1, 2018. The standard permits the use of either the retrospective or cumulative effect transition method, and the Company is evaluating which transition method it will elect. The Company is also in the process of evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company’s revenue is primarily derived from leasing activities and historically the Company’s property dispositions have been cash sales with no contingencies and no future involvement in the property. Since this standard applies to all contracts with customers except those that are within the scope of other guidance, such as leases, the Company does not expect the adoption of this standard to have a significant impact on its consolidated financial statements and related disclosures.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

Segment Reporting & Financial Information

The Company’s primary business is the ownership and management of real estate properties. The Company invests in well-located, modern, single tenant, industrial buildings leased primarily to investment-grade tenants or their subsidiaries on long-term net leases. The Company reviews operating and financial information for each property on an individual basis and, therefore, each property represents an individual operating segment. The Company evaluates financial performance using Net Operating Income (NOI) from property operations. NOI is a non-GAAP financial measure, which we define as recurring Rental and Reimbursement Revenue, less Real Estate Taxes and Operating Expenses, such as insurance, utilities and repairs and maintenance. The Company has aggregated the properties into one reportable segment as the properties share similar long-term economic characteristics and have other similarities, including the fact that they are operated as industrial properties subject to long-term net leases primarily to investment-grade tenants or their subsidiaries.

NOTE 2 – NET INCOME PER SHARE

Basic Net Income per Common Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding during the period. Diluted Net Income per Common Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method.

In addition, common stock equivalents of 211,382 and 143,640 shares are included in the diluted weighted-average shares outstanding for the three months ended December 31, 2017 and 2016, respectively. For the diluted weighted-average shares outstanding for the three months ended December 31, 2017 and 2016, -0- and 215,000 options to purchase shares of common stock were antidilutive.

NOTE 3 – REAL ESTATE INVESTMENTS

On November 2, 2017, the Company purchased a newly constructed 121,683 square foot industrial building, situated on 16.2 acres, located in Charleston, SC. The building is 100% net-leased to FedEx Corporation (FDX) for 15 years through August 2032. The purchase price was \$21,872,170. The Company obtained a 15 year fully-amortizing mortgage loan of \$14,200,000 at a fixed interest rate of 4.23%. Annual rental revenue over the remaining term of the lease averages approximately \$1,312,000.

The Company obtained a 10 year mortgage loan, amortizing over 18 years, of \$19,600,000 at a fixed interest rate of 3.64%. Annual rental revenue over the remaining term of the lease averages approximately \$1,884,000.

The Company evaluated the property acquisitions which took place during the three months ended December 31, 2017, to determine whether an integrated set of assets and activities meets the definition of a business, pursuant to ASU 2017-01. Acquisitions that do not meet the definition of a business are accounted for as asset acquisitions. Accordingly, the Company accounted for the properties purchased in Charleston, SC and Oklahoma City, OK as asset acquisitions and allocated the total cash consideration, including transaction costs of approximately \$378,000, to the individual assets acquired on a relative fair value basis. There were no liabilities assumed in these acquisitions. The financial information set forth below summarizes the Company's purchase price allocation for these two properties acquired during the three months ended December 31, 2017 that are accounted for as asset acquisitions:

Land	\$ 6,257,523
Building	45,108,625
In-Place Leases	1,134,017

The following table summarizes the operating results included in the Company's consolidated statements of income for the three months ended December 31, 2017 for the properties acquired during the three months ended December 31, 2017:

The Company obtained a 14 year fully-amortizing mortgage loan of \$33,300,000 at a fixed interest rate of 3.53%. Expansions

On November 1, 2017, a parking lot expansion for a property leased to FedEx Ground Package System, Inc., a subsidiary of FDX, located in Indianapolis, IN was completed for a total project cost of approximately \$1,683,000, resulting in a new 10 year lease which extended the prior lease expiration date from April 2024 to October 2027. In addition, the expansion resulted in an increase in annual rent effective from the date of completion of approximately \$184,000 from approximately \$1,533,000, or \$4.67 per square foot, to approximately \$1,717,000, or \$5.24 per square foot.

Disposition and Real Estate classified as Held for Sale

Two leases that were set to expire during fiscal 2018 were leased to Kellogg at our 65,067 square foot facility located in Kansas City, MO through July 31, 2018 and at our 50,400 square foot facility located in Orangeburg, NY through February 28, 2018. Kellogg informed the Company that they will not be renewing their leases at these two properties. On December 18, 2017, the Company sold its property, located in Kansas City, MO for \$4,900,000, with net sale proceeds to the Company of approximately \$4,602,000 and on December 22, 2017, the Company sold its property, located in Orangeburg, NY for \$6,170,000, with net sale proceeds to the Company of approximately \$5,898,000. The sale of these two properties resulted in a realized gain of approximately \$5,388,000, representing a 105% gain over the depreciated U.S. GAAP basis and a realized net gain on a historic cost undepreciated basis of approximately \$1,804,000, representing a 21% net gain over the Company's historic cost basis. In conjunction with the sale of these two properties, the Company simultaneously entered into a lease termination agreement for each property whereby the Company received a termination fee from Kellogg totaling approximately \$210,000 which represents a weighted average of 80% of the then remaining rent due under each respective lease.

Real Estate Held for Sale at December 31, 2017 consists of two properties that the Company has entered into agreements to sell. The two properties consist of an 87,500 square foot facility located in Ft. Myers, FL, which is currently vacant and an 68,370 square foot facility located in Colorado Springs, CO.

During the prior year quarter, on October 27, 2016, the Company sold its 59,425 square foot industrial building situated on 4.78 acres located in White Bear Lake, MN for net proceeds of approximately \$4,126,000.

Since the sale of the properties located in White Bear Lake, MN, Kansas City, MO and Orangeburg, NY and the future sale of the two properties classified as Real Estate Held for Sale do not represent a strategic shift that has a major effect on the Company's operations and financial results, the operations generated from these properties are not included in Discontinued Operations.

The following table summarizes the operations that are included in the accompanying Consolidated Statements of Income for the three months ended December 31, 2017 and 2016 for the two properties that were sold during the current quarter, prior to their sale, one property sold during the prior year quarter, prior to its sale, and for the two properties that are classified as Real Estate Held for Sale in the accompanying Consolidated Balance Sheets.

Pro forma information

The following unaudited pro forma condensed financial information has been prepared utilizing the historical financial statements of the Company and the effect of additional revenue and expenses generated from property acquired and expanded during fiscal 2018 to date, and during fiscal 2017, assuming that the acquisitions and completed expansions had occurred as of October 1, 2016, after giving effect to certain adjustments including: (a) Rental Revenue adjustments resulting from the straight-lining of scheduled rent increases, (b) Interest Expense resulting from the assumed increase in Fixed Rate Mortgage Notes Payable and Loans Payable related to the new acquisitions, and (c) Depreciation Expense related to the new acquisitions. In addition, the net proceeds raised from the issuance of the 6.125% Series C Cumulative Redeemable Preferred Stock less the redemptions of the Company's 7.625% Series A Cumulative Redeemable Preferred Stock redeemed on October 14, 2016 and the Company's 7.875% Series B Cumulative Redeemable Preferred Stock redeemed on June 7, 2017 were used to help fund property acquisitions and, therefore, the pro forma preferred dividend expense has been adjusted to account for its effect on Net Income Attributable to Common Shareholders as if all the preferred stock issuances and redemptions had occurred on October 1, 2016. In addition, Net Income Attributable to Common Shareholders excludes the operations of the properties sold during fiscal 2018 and 2017 which were the vacant property located in White Bear Lake, MN that was sold on October 27, 2016, the property located in Kansas City, MO that was sold on December 18, 2017 and the property located in Orangeburg, NY that was sold on December 22, 2017 and excludes the two properties classified as Real Estate Held for Sale. Furthermore, the proceeds raised from the Dividend Reinvestment and Stock Purchase Plan (the DRIP) were used to fund property acquisitions and expansions and therefore, the weighted average shares outstanding used in calculating the Basic and Diluted Net Income per Share Attributable to Common Shareholders has been adjusted to account for the increase in shares raised through the DRIP, as if all the shares raised had occurred on October 1, 2016. The unaudited pro forma condensed financial information is not indicative of the results of operations that would have been achieved had the acquisitions and expansions reflected herein been consummated on the dates indicated or that will be achieved in the future.

NOTE 7 - FAIR VALUE MEASUREMENTS

The Company measures certain financial assets and liabilities at fair value on a recurring basis, including Securities Available for Sale at Fair Value. The Company's financial assets consist mainly of marketable REIT securities. The fair value of these financial assets was determined using the following inputs at December 31, 2017 and September 30, 2017:

	Fair Value Measurements at Reporting Date Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
As of December 31, 2017:

Equity Securities – Common Stock	121,608,411	121,608,411	-0-	-0-

Total Securities Available for Sale at Fair Value	\$ 130,431,475	\$ 130,431,475	\$ -0-	\$ -0-
As of September 30, 2017:				
Equity Securities – Preferred Stock	\$ 11,818,628	\$ 11,818,628	\$ -0-	\$ -0-
Equity Securities – Common Stock	111,941,806	111,941,806	-0-	-0-

Total Securities Available for Sale at Fair Value	\$ 123,764,770	\$ 123,764,770	\$ -0-	\$ -0-

In addition to the Company's investments in Securities Available for Sale at Fair Value, the Company is required to disclose certain information about fair values of its other financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a financial instrument. For a portion of the Company's other financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only, and therefore cannot be compared to the historical accounting model. The use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of Cash and Cash Equivalents approximates their current carrying amounts since all such items are short term in nature. The fair value of variable rate Loans Payable approximates their current carrying amounts, since such amounts payable are at approximately a weighted-average current market rate of interest. The estimated fair value of Fixed Rate Mortgage Notes Payable is based on discounting the future cash flows at a yearend risk adjusted borrowing rate currently available to the Company for issuance of debt with similar terms and remaining maturities. These fair value measurements fall within level 2 of the fair value hierarchy. At December 31, 2017, the Fixed Rate Mortgage Notes Payable fair value (estimated based upon expected cash outflows discounted at current market rates) amounted to approximately \$624,966,000 and the carrying value amounted to \$620,411,537. Those fair value measurements are estimated based on independent third party appraisals and fall within level 3 of the fair value hierarchy.

NOTE 8 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the three months ended December 31, 2017 and 2016 was approximately \$7,198,000 and \$5,882,000, respectively.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**Overview and Recent Activity**

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2017.

The Company operates as a real estate investment trust (REIT). The Company seeks to invest in well-located, modern single-tenant industrial buildings leased primarily to investment grade tenants or their subsidiaries on long-term net leases. During the three months ended December 31, 2017, the Company purchased two net-leased industrial properties, located in Charleston, SC and Oklahoma City, OK totaling approximately 422,000 square feet, for approximately \$52,122,000. In connection with the two properties acquired during the three months ended December 31, 2017, the Company entered into one, 15 year, fully-amortizing mortgage loan and one 10 year mortgage loan, amortizing over 18 years. The two mortgage loans originally totaled \$33,800,000 with an original weighted average loan maturity of 12.1 years and a weighted average interest rate of 3.89%. As of December 31, 2017, the Company owned 108 properties with total square footage of approximately 19,096,000. These properties are located in 30 states. As of the quarter ended December 31, 2017, the Company's weighted average lease maturity was approximately 7.9 years, its occupancy rate was 99.5% and its annualized average base rent per occupied square foot was \$5.99. As of December 31, 2017, the weighted average building age, based on the square footage of the Company's buildings, was 9.1 years. In addition, total gross real estate investments, excluding marketable REIT securities investments of \$130,431,475, were \$1,484,039,198 as of December 31, 2017.

The Company evaluates its financial performance using Net Operating Income (NOI) from property operations, which is a non-GAAP financial measure that the Company defines as Net Income Attributable to Common Shareholders plus Redemption of Preferred Stock, Preferred Dividends, General and Administrative Expenses, Acquisition Costs, Depreciation, Amortization of Capitalized Lease Costs and Intangible Assets, Interest Expense, including Amortization of Financing Costs, less Dividend and Interest Income, Gain on Sale of Securities Transactions, Lease Termination Income and Gain on Sale of Real Estate Investments. The components of NOI are recurring Rental and Reimbursement Revenue, less Real Estate Taxes and Operating Expenses, such as insurance, utilities and repairs and maintenance. Other REITs may use different methodologies to calculate NOI and, accordingly, our NOI may not be comparable to all other REITs.

The following is a reconciliation of the Company's Net Income Attributable to Common Shareholders to the Company's NOI for the three months ended December 31, 2017 and 2016:

Our 68,370 square foot facility located in Colorado Springs, CO is leased by FedEx Ground Package System, Inc. through September 30, 2018. The tenant has informed us that they will not be renewing this lease because they have moved its operations from our 68,370 square foot facility to our recently constructed 225,362 square foot facility, which is also located in Colorado Springs, CO. On June 9, 2016, we purchased this newly constructed 225,362 square foot industrial building, which is leased for 10 years through January 2026. The original 68,370 square foot Colorado Springs, CO facility is under contract to sell for \$5,800,000, which is approximately the Company's U.S. GAAP net book carrying value, and is anticipated to close during the third quarter of fiscal 2018, subject to customary closing conditions and requirements.

One of our tenants that leases 80,856 square feet at our 255,658 square foot building located in Monaca (Pittsburgh), PA has informed us that they will not be renewing their lease, which expired on December 31, 2017.

The remaining five leases that are still set to expire during fiscal 2018 are currently under discussion.

One property subject to a lease that expired in fiscal 2017 and was not renewed was our 36,270 square foot facility located in Urbandale (Des Moines), IA. Effective November 1, 2017, we entered into a 10.2 year lease agreement with FBM Gypsum Supply of Illinois, LLC through December 31, 2027 for this facility. The lease agreement provides for two months of free rent, after which, on January 1, 2018, initial annual rent of \$159,588, representing \$4.40 per square foot commenced, with 2.0% annual increases thereafter, resulting in a straight-line annualized rent of approximately \$172,000, representing \$4.74 per square foot over the life of the lease. This compares to the former average rent of \$3.56 per square foot on a U.S. GAAP straight-line basis and the former cash rent of \$3.88 per square foot, representing an increase in the average lease rate of 33.1% on a U.S. GAAP straight-line basis and an increase in the lease rate of 13.4% on a cash basis.

Rental Revenue increased \$4,411,626, or 19%, for the three months ended December 31, 2017 as compared to the three months ended December 31, 2016. These increases were primarily due to the acquisition of eight properties purchased during the last three quarters of fiscal 2017 and the two properties purchased during the first three months of fiscal 2018.

Our single-tenant properties are subject to net leases which require the tenants to reimburse us for the cost of Real Estate Taxes as well as certain Operating Expenses such as insurance and the majority of repairs and maintenance. For the three months ended December 31, 2017 compared to the three months ended December 31, 2016, Reimbursement Revenue increased \$1,148,585, or 29%, Real Estate Tax Expense increased \$955,682, or 33%, and Operating Expenses increased \$141,773, or 11%. These increases in Reimbursement Revenue, Real Estate Taxes and Operating Expenses for the three months ended December 31, 2017 were primarily due to our newly acquired properties. Reimbursement Revenue as a percentage of Real Estate Taxes and Operating Expenses for the three months ended December 31, 2017 and 2016 remain in line at 95% and 93%, respectively.

General and Administrative Expenses increased \$504,569, or 35%, for the three months ended December 31, 2017 as compared to the three months ended December 31, 2016. This increase was primarily due to an increase in salaries. General and Administrative Expenses, as a percentage of gross revenue, (which includes Rental Revenue, Reimbursement Revenue and Dividend and Interest Income), are 5.5% for the three months ended December 31, 2017 as compared to 5.1% for the three months ended December 31, 2016. Annualized General and Administrative Expenses, as a percentage of undepreciated assets (which is the Company's total assets excluding accumulated depreciation) are 46 basis points and 42 basis points for the three months ended December 31, 2017 and 2016, respectively.

Acquisition Costs amounted to \$-0- and \$178,526 for the three months ended December 31, 2017 and 2016, respectively. As a result of adopting ASU 2017-01, prospectively as of April 1, 2017, as permitted under the standard, effective April 1, 2017, we no longer account for our property acquisitions as business combinations and instead we account for our property acquisitions as acquisitions of assets. In an acquisition of assets, certain acquisition costs are capitalized to real estate investments as part of the purchase price as opposed to being expensed as Acquisition Costs under the previous accounting treatment for business combinations. Therefore, subsequent to April 1, 2017, we no longer expense Acquisition Costs for our property acquisitions.

The Company recognized dividend income on its investment in securities of \$2,862,644 and \$1,288,803 for the three months ended December 31, 2017 and 2016, respectively, representing an increase of 122%. This increase is due to a higher average carrying value of the REIT securities portfolio during the current three month period compared to the prior year three month period. The REIT securities portfolio's weighted average yield for three months ended December 31, 2017 was approximately 9.1% as compared to 7.4% for the three months ended December 31, 2016.

Interest Expense, including Amortization of Financing Costs, increased \$1,242,728, or 20%, for the three months ended December 31, 2017 as compared to the three months ended December 31, 2016. This increase is primarily due to an increase in the average balance of Fixed Rate Mortgage Notes Payable due to the newly acquired properties purchased since January 1, 2017. The Fixed Rate Mortgage Notes Payable balance increased \$108,119,401 or 21% from December 31, 2016 to December 31, 2017. This increase was partially offset by a decrease of 28 basis points in the weighted average interest rate of the Fixed Rate Mortgage Notes Payable, which decreased from 4.44% at December 31, 2016 to 4.16% at December 31, 2017.

Changes in Financial Condition

The Company generated Net Cash from Operating Activities of \$17,090,439 and \$14,152,706 for the three months ended December 31, 2017 and 2016, respectively.

Net Real Estate Investments increased \$43,690,960 from September 30, 2017 to December 31, 2017. This increase was mainly due to the purchase of two net-leased industrial properties, located in Charleston, SC and Oklahoma City, OK, totaling approximately 422,000 square feet, for approximately \$52,122,000, of which approximately \$51,366,000 was allocated to Net Real Estate Investments. The increase was partially offset by Depreciation Expense for the three months ended December 31, 2017 of \$8,483,984.

Securities Available for Sale increased \$6,666,705 from September 30, 2017 to December 31, 2017. The increase was due to the purchase of securities totaling \$19,714,857, offset by the sale of securities with a cost basis of \$2,335,015, which resulted in realized gains totaling \$100,153 and by a net decrease in Unrealized Holding Gain (Loss) of \$10,713,137.

Fixed Rate Mortgage Notes Payable, net of Unamortized Debt Issuance Costs (Mortgage Notes Payable) increased \$21,287,064 from September 30, 2017 to December 31, 2017. The increase was mostly due to the origination of two fixed rate mortgages totaling \$33,800,000 obtained in connection with the acquisitions of two industrial properties purchased in the first quarter of fiscal 2018. These two mortgage loans have an original weighted average loan maturity of 12.1 years and a weighted average interest rate of 3.89%. Details on these two fixed rate mortgages are as follows:

Property	Mortgage amount	Maturity Date	Interest Rate
Charleston, SC	\$ 14,200,000	12/1/2032	4.23%
Oklahoma City, OK	19,600,000	12/1/2027	3.64%

The increase in Mortgage Notes Payable was also partially due to the amortization of financing costs associated with the Mortgage Notes Payable of approximately \$200,000. This increase was partially offset by scheduled payments of principal of approximately \$12,351,000, which includes the full repayment of the Company's one mortgage associated with a property located in Richfield, OH for approximately \$2,633,000. In addition, the increase in Mortgage Notes Payable was partially offset by the addition of deferred financing costs of approximately \$362,000, of which approximately \$348,000 is associated with the two mortgages obtained in connection with the acquisitions of the two industrial properties purchased in the first three months of fiscal 2018.

In general, the Company may borrow up to 50% of the value of the marketable securities. As of December 31, 2017, there were no draws against the margin. The 47 unencumbered properties could be refinanced to raise additional funds, although covenants in the Company's unsecured line of credit facility (the Facility) limit the amount of unencumbered properties that can be mortgaged. As of December 31, 2017, the Company has drawn down \$110,000,000 on the Facility, which had an interest rate of 3.06%. The Facility has an additional \$100,000,000 accordion feature, which brings the total potential availability up to \$300,000,000. The Facility matures September 2020, with a one-year extension at the Company's option.

The Company may raise capital through registered direct placements and public offerings of common and preferred stock. The Company has a concentration of FDX and FDX subsidiary-leased properties, consisting of 59 separate stand-alone leases covering approximately 9,513,000 square feet as of December 31, 2017 and 55 separate stand-alone leases covering approximately 8,187,000 square feet as of December 31, 2016. These liquid real estate holdings are not included in calculating the tenant concentration ratios above and therefore further enhance the Company's diversification. The securities portfolio provides the Company with additional liquidity, diversification and income and serves as a proxy for real estate when more favorable risk adjusted returns are not available.

In addition to the property purchased subsequent to the quarter end, the Company has entered into agreements to purchase two new build-to-suit, industrial buildings that are currently being developed in Florida and South Carolina, consisting of approximately 660,000 square feet, with net-leased terms of 10 and 15 years with a weighted average lease term of 12 years. The purchase price for these properties is approximately \$78,018,000. Approximately 261,000 square feet, or 40%, is leased to FedEx Ground Package System, Inc. Subject to satisfactory due diligence and other customary closing conditions and requirements, we anticipate closing these transactions during fiscal 2018 and the first quarter of fiscal 2019. In connection with the two properties, the Company has entered into commitments to obtain two mortgage loans totaling \$49,360,000 at fixed rates ranging of 3.82% and 4.25%, with a weighted average interest rate of 3.99%. Myers, FL, for \$6,400,000, which is approximately \$2,400,000 above the Company's U.S. GAAP net book carrying value and is anticipated to close during the second quarter of fiscal 2018 (ii) a 68,370 square foot building located in Colorado Springs, CO for \$5,800,000, which is approximately the Company's U.S. GAAP net book carrying value and is anticipated to close during the third quarter of fiscal 2018. The completion of these two sales are subject to customary closing conditions and requirements.

The Company intends to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants or their subsidiaries, and when needed, expand its current properties. The funds may come from free cash flow from operations, mortgage loans, draws on our unsecured line of credit, cash on hand, sale of marketable securities, other bank borrowings, proceeds from the DRIP, proceeds from the Preferred Stock ATM Program, private placements and public offerings of additional common or preferred stock or other securities. To the extent that funds or appropriate properties are not available, fewer acquisitions will be made.

Off-Balance Sheet Arrangements

The Company does not have any material off-balance sheet arrangements.

Funds From Operations, Core Funds From Operations and Adjusted Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by the National Association of Real Estate Investment Trusts (NAREIT), represents net income attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (U.S. GAAP), excluding extraordinary items, as defined under U.S. GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-U.S. GAAP supplemental measure of REIT operating performance. We define Core Funds From Operations (Core FFO) as FFO, excluding acquisition costs and costs associated with the Redemption of Preferred Stock. We define Adjusted Funds From Operations (AFFO) as Core FFO, excluding stock based compensation expense, depreciation of corporate office tenant improvements, amortization of deferred financing costs, lease termination income, net gain or loss on sale of securities transactions, effect of non-cash U.S. GAAP straight-line rent adjustments, non-recurring other expenses and less recurring capital expenditures. We define recurring capital expenditures as all capital expenditures, excluding capital expenditures related to expansions at our current locations or capital expenditures that are incurred in conjunction with obtaining a new lease or a lease renewal. We believe that, as widely recognized measures of performance used by other REITs, FFO, Core FFO and AFFO may be considered by investors as supplemental measures to compare our operating performance to those of other REITs. FFO, Core FFO and AFFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. However, other REITs may use different methodologies to calculate FFO, Core FFO and AFFO and, accordingly, our FFO, Core FFO and AFFO may not be comparable to all other REITs. The items excluded from FFO, Core FFO and AFFO are significant components in understanding the Company's financial performance.

FFO, Core FFO and AFFO are non-GAAP performance measures and (i) do not represent Cash Flow from Operations as defined by U.S. GAAP; (ii) should not be considered as an alternative to Net Income or Net Income Attributable to Common Shareholders as a measure of operating performance or to Cash Flows from Operating, Investing and Financing Activities; and (iii) are not an alternative to Cash Flows from Operating, Investing and Financing Activities as a measure of liquidity. FFO, Core FFO and AFFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

Risks Related to our Status as a REIT

There is a risk of changes in the tax law applicable to real estate investment trusts. Because the IRS, the United States Treasury Department and Congress frequently review federal income tax legislation, we cannot predict whether, when or to what extent new federal tax laws, regulations, interpretations or rulings will be adopted. Any of such legislative action may prospectively or retroactively modify our tax treatment and, therefore, may adversely affect taxation of us and/or our investors.

The recently enacted Tax Cuts and Jobs Act of 2017, or the TCJA, has significantly changed the U.S. federal income taxation of U.S. businesses and their owners, including REITs and their shareholders. Changes made by the TCJA that could affect us and our shareholders include:

- Temporarily reducing individual U.S. federal income tax rates on ordinary income; the highest individual U.S. federal income tax rate has been reduced from 39.6% to 37% for taxable years beginning after December 31, 2017 and before January 1, 2026;
- permanently eliminating the progressive corporate tax rate structure, with a maximum corporate tax rate of 35%, and replacing it with a flat corporate tax rate of 21%;
- permitting a deduction for certain pass-through business income, including dividends received by our shareholders from us that are not designated by us as capital gain dividends or qualified dividend income, which will allow individuals, trusts, and estates to deduct up to 20% of such amounts for taxable years beginning after December 31, 2017 and before January 1, 2026;
- reducing the highest rate of withholding with respect to our distributions to non-U.S. stockholders that are treated as attributable to gains from the sale or exchange of U.S. real property interests from 35% to 21%;
- limiting our deduction for net operating losses to 80% of REIT taxable income (prior to the application of the dividends paid deduction);
- generally limiting the deduction for net business interest expense in excess of 30% of a business’s adjusted taxable income except for taxpayers that engage in certain real estate businesses and elect out of this rule (provided that such electing taxpayers must use an alternative depreciation system for certain property); and
- eliminating the corporate alternative minimum tax.

Many of these changes are effective immediately, without any transition periods or grandfathering for existing transactions. The TCJA is unclear in many respects and could be subject to potential amendments and technical corrections, as well as interpretations and implementing regulations by the United States Treasury Department and the IRS, any of which could lessen or increase certain adverse impacts of the TCJA. In addition, it is unclear how these U.S. federal income tax changes will affect state and local taxation, which often uses federal taxable income as a starting point for computing state and local tax liabilities.

While some of the changes made by the TCJA may adversely affect us, other changes may be beneficial on a going forward basis. We continue to work with our tax advisors and auditors to determine the full impact that the recent tax legislation as a whole will have on us. You are urged to consult with your tax advisor with respect to the status of legislative, regulatory, judicial or administrative developments and proposals and their potential effect on an investment in our securities.

We may be adversely affected if we fail to qualify as a REIT. If we fail to qualify as a REIT, we will not be allowed to deduct distributions to shareholders in computing our taxable income and will be subject to federal income tax at regular corporate rates and possibly increased state and local taxes. In addition, we might be barred from qualification as a REIT for the four years following disqualification. The additional tax incurred at regular corporate rates would reduce significantly the cash flow available for distribution to shareholders and for debt service. Furthermore, we would no longer be required to make any distributions to our shareholders as a condition to REIT qualification. Any distributions to shareholders would be taxable as ordinary income to the extent of our current and accumulated earnings and profits, although such dividend distributions to non-corporate shareholders would be subject to a top federal income tax rate of 20% (and potentially a Medicare tax of 3.8%), provided applicable requirements of the Internal Revenue Code are satisfied. Furthermore, corporate shareholders may be eligible for the dividends received deduction on the distributions, subject to limitations under the Code. Additionally, if we fail to qualify as a REIT, non-corporate stockholders would no longer be able to deduct up to 20% of our dividends (other than capital gain dividends and dividends treated as qualified dividend income), as would otherwise generally be permitted for taxable years beginning after December 31, 2017 and before January 1, 2026.
