MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
JUNE 30, 2018

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation, a Maryland corporation, together with its consolidated subsidiaries (we, our, us, the Company or MREIC), operates as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. We were founded in 1968 and are one of the oldest public equity REITs in the world. As of June 30, 2018, we owned 109 properties with total square footage of approximately 20,535,000, which was 99.6% occupied, as compared to 108 properties with total square footage of approximately 18,790,000, which was 99.3% occupied as of September 30, 2017. These properties are located in 30 states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Washington and Wisconsin. As of the quarter ended June 30, 2018, our weighted average lease maturity was approximately 7.8 years and our annualized average base rent per occupied square foot was \$5.89. As of June 30, 2018, the weighted average building age, based on the square footage of our buildings, was 8.8 years. We also own a portfolio of REIT investment securities, which we generally limit to no more than approximately 10% of our undepreciated assets (which is our total assets, excluding accumulated depreciation). Total assets excluding accumulated depreciation were \$1,821,914,393 as of June 30, 2018. We held \$167,594,279 in marketable REIT securities as of June 30, 2018, representing 9.2% of our undepreciated assets.

We have elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code of 1986, as amended (the Code), and we intend to maintain our qualification as a REIT in the future. As a qualified REIT, with limited exceptions, we will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that we distribute to our shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. We are subject to franchise taxes in several of the states in which we own properties.

In December 2017, the Tax Cuts and Jobs Act of 2017 (the Act), Code Section 199A, was added to the Code and became effective for tax years beginning after December 31, 2017 and before January 1, 2026. Under the Act, subject to certain income limitations, individual taxpayers may deduct 20% of the aggregate amount of qualified REIT dividends they receive from their taxable income. Qualified REIT dividends do not include any portion of a dividend received from a REIT that is classified as a capital gain dividend.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with Accounting Principles Generally Accepted in the United States of America (U.S. GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In our opinion, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended June 30, 2018 are not necessarily indicative of the results that may be expected for the year ending September 30, 2018. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in our annual report on Form 10-K for the fiscal year ended September 30, 2017.

Use of Estimates

In preparing the financial statements in accordance with U.S. GAAP, we are required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods and related disclosure of contingent assets and liabilities. Actual results could differ from these estimates and assumptions.

Table of Contents

Reclassification

Certain prior period amounts in the accompanying Consolidated Financial Statements have been reclassified to conform to the current period's presentation.

Lease Termination Income

Lease Termination Income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease agreement with us.

Two leases that were set to expire during fiscal 2018 were leased to Kellogg Sales Company (Kellogg) at our 65,067 square foot facility located in Kansas City, MO through July 31, 2018 and at our 50,400 square foot facility located in Orangeburg, NY through February 28, 2018. Kellogg informed us that they would not be renewing these leases. On December 18, 2017, we sold our property, located in Kansas City, MO for \$4,900,000, with net sale proceeds of approximately \$4,602,000 and on December 22, 2017, we sold our property, located in Orangeburg, NY for \$6,170,000, with net sale proceeds of approximately \$5,898,000. The sale of these two properties resulted in a realized gain of approximately \$5,388,000, representing a 105% gain over the depreciated U.S. GAAP basis and a realized net gain of approximately \$1,804,000, representing a 21% net gain over our historic undepreciated cost basis. In conjunction with the sale of these two properties, we simultaneously entered into a lease termination agreement for each property whereby we received a termination fee from Kellogg totaling approximately \$210,000 which represents a weighted average of 80% of the then remaining rent due under each respective lease.

Only four of our 109 properties have leases that contain an early termination provision. These four properties contain approximately 184,000 total rentable square feet, representing less than 1% of our total rentable square feet. Our leases with early termination provisions are our 26,340 square foot location in Ridgeland (Jackson), MS, our 36,270 square foot location in Urbandale (Des Moines), IA, our 38,833 square foot location in Rockford, IL, and our 83,000 square foot location in Roanoke, VA. Each lease termination provision contains certain requirements that must be met in order to exercise each termination provision. These requirements include: the date termination can be exercised, the time frame that notice must be given by the tenant to us and the termination fee that would be required to be paid by the tenant to us. The total potential termination fee to be paid to us from the four tenants with leases that have a termination provision amounts to approximately \$1,681,000.

Stock Compensation Plan

We account for awards of stock options and restricted stock in accordance with ASC 718-10, "Compensation-Stock Compensation". ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of our stock on the grant date. The amortization of compensation costs for stock option grants and restricted stock are included in General and Administrative Expenses in the accompanying Consolidated Statements of Income and amounted to \$96,969 and \$174,709 for the three months ended June 30, 2018 and 2017, respectively and amounted to \$339,139 and \$441,054 for the nine months ended June 30, 2018 and 2017, respectively.

Table of Contents

Recent Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-02, "Leases". ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. We are continuing to evaluate the potential impact this standard may have on our consolidated financial statements and the timing of adoption. The most significant changes related to lessor accounting under ASU 2016-02 include bifurcating revenue into lease and non-lease components and the new standard's narrow definition of initial direct costs for leases. Since our revenue is primarily derived from leasing activities from long-term net leases and since we currently do not capitalize indirect costs for leases, we believe that we will continue to account for our leases and related leasing costs in substantially the same manner as we currently do once the adoption of the ASU 2016-02 becomes effective.

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities". ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. These changes become effective for our fiscal year beginning October 1, 2018. We anticipate that the most significant change for us, once ASU 2016-01 is adopted, will be the accounting for our investments in marketable securities classified as available for sale, which are currently carried at fair value with unrealized holding gains and losses being excluded from earnings and reported as a separate component of Shareholders' Equity until realized and the change in net unrealized holding gains and losses being reflected as comprehensive income (loss). Under ASU 2016-01, these marketable securities will continue to be measured at fair value, however the changes in net unrealized holding gains and losses will be recognized through net income.

Table of Contents

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers”. The FASB issued further guidance in ASU 2016-12, “Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients”, that provides clarifying guidance in certain narrow areas and adds some practical expedients. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The effective date of ASU 2014-09 was extended by one year by ASU 2015-14, “Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date”. The new standard is effective for the first interim period within annual reporting periods beginning after December 15, 2017. Therefore, we expect to adopt the standard effective October 1, 2018. The standard permits the use of either the retrospective or cumulative effect transition method, and we are evaluating which transition method we will elect. We are also in the process of evaluating the effect that ASU 2014-09 will have on our consolidated financial statements and related disclosures. Our revenue is primarily derived from leasing activities and historically our property dispositions have been cash sales with no contingencies and no future involvement in the property. Since this standard applies to all contracts with customers except those that are within the scope of other guidance, such as leases, we do not expect the adoption of this standard to have a significant impact on our consolidated financial statements and related disclosures.

We do not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

Segment Reporting & Financial Information

Our primary business is the ownership and management of real estate properties. We invest in well-located, modern, single tenant, industrial buildings leased primarily to investment-grade tenants or their subsidiaries on long-term net leases. We review operating and financial information for each property on an individual basis and, therefore, each property represents an individual operating segment. We evaluate financial performance using Net Operating Income (NOI) from property operations. NOI is a non-GAAP financial measure, which we define as recurring Rental and Reimbursement Revenue, less Real Estate Taxes and Operating Expenses, such as insurance, utilities and repairs and maintenance. We have aggregated the properties into one reportable segment as the properties share similar long-term economic characteristics and have other similarities, including the fact that they are operated as industrial properties subject to long-term net leases primarily to investment-grade tenants or their subsidiaries.

NOTE 2 – NET INCOME PER SHARE

Basic Net Income per Common Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding during the period. Diluted Net Income per Common Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method.

In addition, common stock equivalents of 158,211 and 171,719 shares are included in the diluted weighted average shares outstanding for the three months ended June 30, 2018 and 2017, respectively, and common stock equivalents of 177,783 and 157,858 shares are included in the diluted weighted average shares outstanding for the nine months ended June 30, 2018 and 2017, respectively. For the diluted weighted average shares outstanding for the three months ended June 30, 2018 and 2017, 65,000 options to purchase shares of common stock were antidilutive. For the diluted weighted average shares outstanding for the nine months ended June 30, 2018 and 2017, 65,000 options to purchase shares of common stock were antidilutive.

We evaluated the property acquisitions which took place during the nine months ended June 30, 2018, to determine whether an integrated set of assets and activities meets the definition of a business, pursuant to ASU 2017-01. Acquisitions that do not meet the definition of a business are accounted for as asset acquisitions. Accordingly, we accounted for the five properties purchased during fiscal 2018 in Charleston, SC; Oklahoma City, OK; Savannah, GA; Daytona Beach, FL and Mobile, AL as asset acquisitions and allocated the total cash consideration, including transaction costs of approximately \$875,000, to the individual assets acquired on a relative fair value basis. There were no liabilities assumed in these acquisitions. The financial information set forth below summarizes our purchase price allocation for these five properties acquired during the nine months ended June 30, 2018 that are accounted for as asset acquisitions:

Land	\$	16,262,625
Building		154,154,984
In-Place Leases		4,501,523

The following table summarizes the operating results included in our consolidated statements of income for the three and nine months ended June 30, 2018 for the five properties acquired during the nine months ended June 30, 2018:

	Three Months Ended 6/30/2018	Nine Months Ended 6/30/2018
Rental Revenues	\$ 2,219,207	\$ 4,086,203
Net Income Attributable to Common Shareholders	599,717	1,232,225

Expansions

On November 1, 2017, a parking lot expansion for a property leased to FedEx Ground Package System, Inc., a subsidiary of FDX, located in Indianapolis, IN was completed for a total project cost of approximately \$1,683,000, resulting in a new 10 year lease which extended the prior lease expiration date from April 2024 to October 2027. In addition, the expansion resulted in an increase in annual rent effective from the date of completion of approximately \$184,000 from approximately \$1,533,000, or \$4.67 per square foot, to approximately \$1,717,000, or \$5.24 per square foot.

Dispositions

Two leases that were set to expire during fiscal 2018 were leased to Kellogg Sales Company (Kellogg) at our 65,067 square foot facility located in Kansas City, MO through July 31, 2018 and at our 50,400 square foot facility located in Orangeburg, NY through February 28, 2018. Kellogg informed us that they would not be renewing these leases. On December 18, 2017, we sold our property, located in Kansas City, MO for \$4,900,000, with net sale proceeds of approximately \$4,602,000 and, on December 22, 2017, we sold our property, located in Orangeburg, NY for \$6,170,000, with net sale proceeds of approximately \$5,898,000. In conjunction with the sale of these two properties, we simultaneously entered into a lease termination agreement for each property whereby we received a termination fee from Kellogg totaling approximately \$210,000 which represents a weighted average of 80% of the then remaining rent due under each respective lease.

On June 1, 2018, we sold a 68,370 square foot building located in Colorado Springs, CO for \$5,800,000, with net sale proceeds of approximately \$5,465,000. Prior to the sale of this property, it was leased to FedEx Ground Package System, Inc. through September 2018. The tenant informed us that they would not be renewing this lease because they have moved their operations from our former 68,370 square foot facility to our newly constructed 225,362 square foot facility, which is also located in Colorado Springs, CO. On June 9, 2016, we purchased this newly constructed 225,362 square foot industrial building, which is leased to FedEx Ground Package System, Inc. for 10 years through January 2026.

On June 5, 2018, we sold an 87,500 square foot vacant building located in Ft. Myers, FL for \$6,400,000, with net sale proceeds of approximately \$6,119,000. Prior to this property becoming vacant, it was leased to FedEx Ground Package System, Inc. through June 2017. FedEx Ground Package System, Inc. vacated this property because they moved their operations from our former 87,500 square foot facility to our newly constructed 213,672 square foot facility, which is also located in Ft. Myers, FL. We purchased this newly constructed facility on December 30, 2016 and it is leased to FedEx Ground Package System, Inc. for 10 years through August 2027.

These four properties sold during fiscal 2018, resulted in a U.S. GAAP net realized gain of approximately \$7,485,000, representing a 51% gain over the depreciated U.S. GAAP basis and a net realized gain over our historic undepreciated cost basis of approximately \$1,160,000, representing a 6% net gain over our historic undepreciated cost basis.

During the prior year, in October 2016, we sold our 59,425 square foot industrial building situated on 4.78 acres located in White Bear Lake, MN for net proceeds of approximately \$4,126,000.

Since the sale of these five properties does not represent a strategic shift that has a major effect on our operations and financial results, the operations generated from these properties are not included in Discontinued Operations.

Pro forma information

The following unaudited pro forma condensed financial information has been prepared utilizing our historical financial statements and the effect of additional revenue and expenses generated from property acquired and expanded during fiscal 2018 to date, and during fiscal 2017, assuming that the acquisitions and completed expansions had occurred as of October 1, 2016, after giving effect to certain adjustments including: (a) Rental Revenue adjustments resulting from the straight-lining of scheduled rent increases, (b) Interest Expense resulting from the assumed increase in Fixed Rate Mortgage Notes Payable and Loans Payable related to the new acquisitions, and (c) Depreciation Expense related to the new acquisitions. In addition, the net proceeds raised from the issuance of our 6.125% Series C Cumulative Redeemable Preferred Stock less the redemptions of our 7.625% Series A Cumulative Redeemable Preferred Stock redeemed on October 14, 2016 and our 7.875% Series B Cumulative Redeemable Preferred Stock redeemed on June 7, 2017 were used to help fund property acquisitions and, therefore, the pro forma preferred dividend expense has been adjusted to account for its effect on Net Income Attributable to Common Shareholders as if all the preferred stock issuances and redemptions had occurred on October 1, 2016. In addition, Net Income Attributable to Common Shareholders excludes the operations of the five properties sold during fiscal 2018 and 2017. Furthermore, the proceeds raised from the Dividend Reinvestment and Stock Purchase Plan (the DRIP) were used to fund property acquisitions and expansions and therefore, the weighted average shares outstanding used in calculating the Basic and Diluted Net Income per Share Attributable to Common Shareholders has been adjusted to account for the increase in shares raised through the DRIP, as if all the shares raised had occurred on October 1, 2016. The unaudited pro forma condensed financial information is not indicative of the results of operations that would have been achieved had the acquisitions and expansions reflected herein been consummated on the dates indicated or that will be achieved in the future.

Table of Contents

In connection with the five properties acquired during the nine months ended June 30, 2018, which are located in Charleston, SC, Oklahoma City, OK, Savannah, GA, Daytona Beach, FL and Mobile, AL (as described in Note 3), we obtained two 15 year fully-amortizing mortgage loans, two 14 year fully-amortizing mortgage loans and one 10 year loan amortizing over 18 years. The five mortgage loans originally totaled \$105,600,000 with an original weighted average mortgage loan maturity of 13.6 years and a weighted average interest rate of 3.89%.

During the nine months ended June 30, 2018, we fully repaid the mortgage loans for four of our properties located in Colorado Springs, CO, Richfield (Cleveland), OH, Tampa, FL and West Chester Twp. (Cincinnati), OH, totaling approximately \$8,649,000.

As of June 30, 2018, Loans Payable represented the amount drawn down on our \$200,000,000 unsecured line of credit facility (the Facility) in the amount of \$110,000,000 and the amount drawn down on our margin loan of \$47,792,824.

The Facility matures in September 2020 with a one year extension at our option (subject to various conditions as specified in the loan agreement). During the nine months ended June 30, 2018, we had no additional draws under the Facility. Availability under the Facility is limited to 60% of the value of the borrowing base properties. The value of the borrowing base properties is determined by applying a capitalization rate to the NOI generated by our unencumbered, wholly-owned industrial properties. Effective, March 22, 2018, the capitalization rate applied to our NOI generated by our unencumbered, wholly-owned industrial properties was lowered from 7.0% to 6.5%, thus increasing the value of the borrowing base properties under the terms of the agreement. Borrowings under the Facility, will, at our election, either i) bear interest at LIBOR plus 140 basis points to 220 basis points, depending on our leverage ratio, or ii) bear interest at BMO's prime lending rate plus 40 basis points to 120 basis points, depending on our leverage ratio. Our borrowings as of June 30, 2018, based on our leverage ratio, bear interest at LIBOR plus 170 basis points, which represented an interest rate of 3.79%. In addition, we have a \$100,000,000 accordion feature, bringing the total potential availability under the Facility (subject to various conditions as specified in the loan agreement) up to \$300,000,000.

We also invest in equity securities of other REITs which provides us with additional liquidity, diversification and income and serves as a proxy for real estate when more favorable risk adjusted returns are not available. From time to time, we may purchase these securities on margin when the interest and dividend yields exceed the cost of funds. In general, we may borrow up to 50% of the value of the marketable securities, which was \$167,594,279 as of June 30, 2018. As of June 30, 2018, we had \$47,792,824 drawn against the margin at an interest rate of 2.00%.

NOTE 7 - FAIR VALUE MEASUREMENTS

We measure certain financial assets and liabilities at fair value on a recurring basis, including Securities Available for Sale at Fair Value. Our financial assets consist mainly of marketable REIT securities. The fair value of these financial assets was determined using the following inputs at June 30, 2018 and September 30, 2017:

	Fair Value Measurements at Reporting Date Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

In addition to our investments in Securities Available for Sale at Fair Value, we are required to disclose certain information about fair values of other financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time our entire holding of financial instruments. For a portion of our other financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions, many of which involve events outside the control of management. Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only, and therefore cannot be compared to the historical accounting model. The use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of Cash and Cash Equivalents approximates their current carrying amounts since all such items are short term in nature. The fair value of variable rate Loans Payable approximates their current carrying amounts, since such amounts payable are at approximately a weighted-average current market rate of interest. The estimated fair value of Fixed Rate Mortgage Notes Payable is based on discounting the future cash flows at a yearend risk adjusted borrowing rate currently available to us for issuance of debt with similar terms and remaining maturities. These fair value measurements fall within level 2 of the fair value hierarchy. At June 30, 2018, the Fixed Rate Mortgage Notes Payable fair value (estimated based upon expected cash outflows discounted at current market rates) amounted to approximately \$663,810,000 and the carrying value amounted to \$665,118,463.

NOTE 8 - SUPPLEMENTAL CASH FLOW INFORMATION

NOTE 9 – CONTINGENCIES AND COMMITMENTS

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**Overview and Recent Activity**

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and our Annual Report on Form 10-K for the fiscal year ended September 30, 2017.

We operate as a real estate investment trust (REIT). We seek to invest in well-located, modern single-tenant industrial buildings leased primarily to investment-grade tenants or their subsidiaries on long-term net leases. We were founded in 1968 and are one of the oldest public equity REITs in the world. During the nine months ended June 30, 2018, we purchased five net-leased industrial properties, located in Charleston, SC; Oklahoma City, OK; Savannah, GA; Daytona Beach, FL; and Mobile, AL, totaling approximately 2,016,000 square feet, for approximately \$174,045,000 in the aggregate. In connection with the five properties acquired during the nine months ended June 30, 2018, we obtained two 15 year fully-amortizing mortgage loans, two 14 year fully-amortizing mortgage loans and one 10 year loan amortizing over 18 years. The five mortgage loans originally totaled \$105,600,000 with an original weighted average mortgage loan maturity of 13.6 years and a weighted average interest rate of 3.89%. As of June 30, 2018, we owned 109 properties with total square footage of approximately 20,535,000. These properties are located in 30 states. As of the quarter ended June 30, 2018, our weighted average lease maturity was approximately 7.8 years, our occupancy rate was 99.6% and our annualized average base rent per occupied square foot was \$5.89. As of June 30, 2018, the weighted average building age, based on the square footage of our buildings, was 8.8 years. In addition, total gross real estate investments, excluding marketable REIT securities investments of \$167,594,279, were \$1,606,017,461 as of June 30, 2018.

We evaluate our financial performance using Net Operating Income (NOI) from property operations, which is a non-GAAP financial measure that we define as Net Income Attributable to Common Shareholders plus Redemption of Preferred Stock, Preferred Dividends, General and Administrative Expenses, Acquisition Costs, Depreciation, Amortization of Capitalized Lease Costs and Intangible Assets, Interest Expense, including Amortization of Financing Costs, less Dividend and Interest Income, Gain on Sale of Securities Transactions, Gain on Sale of Real Estate Investments and Lease Termination Income. The components of NOI are recurring Rental and Reimbursement Revenue, less Real Estate Taxes and Operating Expenses, such as insurance, utilities, and repairs and maintenance. Other REITs may use different methodologies to calculate NOI and, accordingly, our NOI may not be comparable to all other REITs.

The following is a reconciliation of our Net Income Attributable to Common Shareholders to our NOI for the three and nine months ended June 30, 2018 and 2017:

Expansions

On November 1, 2017, a parking lot expansion for a property leased to FedEx Ground Package System, Inc., a subsidiary of FDX, located in Indianapolis, IN was completed for a total project cost of approximately \$1,683,000, resulting in a new 10 year lease which extended the prior lease expiration date from April 2024 to October 2027. In addition, the expansion resulted in an increase in annual rent effective from the date of completion of approximately \$184,000 from approximately \$1,533,000, or \$4.67 per square foot, to approximately \$1,717,000, or \$5.24 per square foot.

Dispositions

Two leases that were set to expire during fiscal 2018 were leased to Kellogg Sales Company (Kellogg) at our 65,067 square foot facility located in Kansas City, MO through July 31, 2018 and at our 50,400 square foot facility located in Orangeburg, NY through February 28, 2018. We currently have two property expansions in progress consisting of one 154,800 square foot building expansion and one parking lot expansion. Total expansion costs are expected to be approximately \$10,906,000. Upon completion of the two expansions, initial annual rent will be increased by approximately \$1,045,000. One expansion will provide for a new 10 year lease extension from the date of completion and one expansion will provide for a new 15 year lease extension from the date of completion.

See PART I, Item 1 – Business in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017 for a more complete discussion of the economic and industry-wide factors relevant to us and the opportunities, challenges, and risks on which we are focused.

Significant Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based upon our Consolidated Financial Statements, which have been prepared in accordance with Accounting Principles Generally Accepted in the United States of America (U.S. GAAP). The preparation of these Consolidated Financial Statements requires us to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of our Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, we evaluate our assumptions, judgments and estimates. We believe that there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” in our annual report on Form 10-K for fiscal year ended September 30, 2017.

Changes in Results of Operations

As of June 30, 2018, we owned 109 properties with total square footage of approximately 20,535,000, as compared to 105 properties with total square footage of approximately 17,917,000, as of June 30, 2017, representing an increase in square footage of 15%. At quarter end, our weighted average lease expiration term remained unchanged and was approximately 7.8 years at the end of both the current year and prior year quarter. Our occupancy rate was 99.6% as of June 30, 2018 as compared to 99.8% as of June 30, 2017, representing a decrease of 20 basis points. Our weighted average building age was 8.8 years as of June 30, 2018 as compared to 9.4 years as of June 30, 2017.

Fiscal 2018 Renewals

In fiscal 2018, approximately 8% of our gross leasable area, representing 16 leases totaling 1,546,637 square feet, was set to expire. As of the date of this quarterly report, 10 of the 16 leases have been renewed. One of the 10 leases, which is with FedEx Ground Package System, Inc. for a property located in Hanahan (Charleston), SC, has renewed for only four months because the tenant plans to move its operations from our 91,776 square foot facility to a newly constructed facility, which is also located in Charleston, SC. Once the construction is complete, we are under contract to purchase this new facility, consisting of 261,240 square feet, subject to satisfactory completion of due diligence and other customary closing conditions and requirements. In addition, once the construction is complete, this brand-new facility will be leased for 15 years. Excluding the four month lease renewal at the Hanahan (Charleston), SC, location, the 9 leases that have renewed thus far represent 889,779 square feet, or 58% of the expiring square footage, and have a weighted average lease term of 6.5 years. These lease renewals resulted in an increase in the weighted average lease rate of 3.9% on a U.S. GAAP straight-line basis and a 2.4% increase on a cash basis.

We have incurred, or we expect to incur, tenant improvement costs of approximately \$458,000 and leasing commission costs of approximately \$811,000 in connection with these 9 lease renewals. The table below summarizes the lease terms of the 9 leases which were renewed. In addition, the table below includes both the tenant improvement costs and the leasing commission costs, which are presented on a per square foot (PSF) basis averaged over the renewal term.

(3) Renewed for only four months because the tenant plans to move its operations from our 91,776 square foot facility located in Hanahan (Charleston), SC to a brand new, build-to-suit 261,240 square foot facility, which is currently under construction and is also in Charleston, SC. We are under contract to purchase this newly constructed facility once construction is complete.

Excluding the four-month lease renewal at the Hanahan (Charleston), SC location, the remaining 9 lease renewals result in a weighted average term of 6.5 years and a renewed U.S. GAAP straight-line weighted average lease rate of \$5.92 per square foot. The renewed weighted average initial cash rent per square foot is also \$5.92. This compares to the former weighted average rent of \$5.70 per square foot on a U.S. GAAP straight-line basis and the former weighted average cash rent of \$5.78 per square foot, representing an increase in the weighted average lease rate of 3.9% on a U.S. GAAP straight-line basis and an increase of 2.4% on a cash basis.

As further described in the three paragraphs below, of the six remaining leases originally set to expire during fiscal 2018, three of the properties were sold. These three properties represent 12% of the expiring square footage for fiscal 2018, and one property representing 14% of the expiring square footage for fiscal 2018 was re-tenanted for 3 years. Additionally, one of our tenants, representing 5% of the expiring square footage for fiscal 2018, did not renew their lease which expired on December 31, 2017. This tenant leased 80,856 square feet at our 255,658 square foot industrial park located in Monaca (Pittsburgh), PA. The remaining lease that is still set to expire during fiscal 2018 is currently under discussion.

Two leases that were set to expire during fiscal 2018 were leased to Kellogg Sales Company (Kellogg) at our 65,067 square foot facility located in Kansas City, MO through July 31, 2018 and at our 50,400 square foot facility located in Orangeburg, NY through February 28, 2018. Kellogg informed us that they would not be renewing these leases. On December 18, 2017, we sold our property, located in Kansas City, MO for \$4,900,000, with net sale proceeds of approximately \$4,602,000 and on December 22, 2017, we sold our property, located in Orangeburg, NY for \$6,170,000, with net sale proceeds of approximately \$5,898,000. The sale of these two properties resulted in a realized gain of approximately \$5,388,000, representing a 105% gain over the depreciated U.S. GAAP basis and a realized net gain of approximately \$1,804,000, representing a 21% net gain over our historic undepreciated cost basis. In conjunction with the sale of these two properties, we simultaneously entered into a lease termination agreement for each property whereby we received a termination fee from Kellogg totaling approximately \$210,000 which represents a weighted average of 80% of the then remaining rent due under each respective lease.

On June 1, 2018, we sold a 68,370 square foot building located in Colorado Springs, CO for \$5,800,000, with net sale proceeds of approximately \$5,465,000, which was our approximate U.S. GAAP net book carrying value. Prior to the sale of this property, it was leased to FedEx Ground Package System, Inc. through September 2018. The tenant informed us that they would not be renewing this lease because they have moved their operations from our former 68,370 square foot facility to our newly constructed 225,362 square foot facility, which is also located in Colorado Springs, CO. On June 9, 2016, we purchased this newly constructed 225,362 square foot industrial building, which is leased to FedEx Ground Package System, Inc. for 10 years through January 2026.

Another remaining lease set to expire during fiscal 2018 was leased to Caterpillar Logistics Services, Inc. (Caterpillar) at our 218,120 square foot facility located in Griffin, GA through December 31, 2017. In September 2017, we entered into a three year lease agreement with Rinnai America Corporation through December 31, 2020 for this location. The new lease commenced on January 1, 2018, with initial annual rent of \$807,044, representing \$3.70 per square foot, with 3.0% annual increases thereafter, resulting in a straight-line annualized rent of \$831,000, representing \$3.81 per square foot over the life of the lease. This compares to the former U.S. GAAP straight-line and the former cash rent of \$5.36 per square foot, representing a decrease in the average lease rate of 28.9% on a U.S. GAAP straight-line basis and a decrease of 31.0% on a cash basis.

Effective November 1, 2017, we entered into a 10.2 year lease agreement with FBM Gypsum Supply of Illinois, LLC for our 36,270 square foot facility located in Urbandale (Des Moines), IA. The lease agreement provides for two months of free rent, after which, on January 1, 2018, initial annual rent of \$159,588, representing \$4.40 per square foot commenced, with 2.0% annual increases thereafter, resulting in a straight-line annualized rent of approximately \$172,000, representing \$4.74 per square foot through the expiration date of the lease, which is December 31, 2027. This new rent compares to the former average rent of \$3.56 per square foot on a U.S. GAAP straight-line basis and the former cash rent of \$3.88 per square foot, representing an increase in the average lease rate of 33.1% on a U.S. GAAP straight-line basis and an increase of 13.4% on a cash basis.

Rental Revenue increased \$4,855,910, or 20%, for the three months ended June 30, 2018 as compared to the three months ended June 30, 2017. Rental Revenue increased \$14,266,691, or 20%, for the nine months ended June 30, 2018 as compared to the nine months ended June 30, 2017. These increases were primarily due to the acquisition of three industrial properties purchased during the last quarter of fiscal 2017 and the five industrial properties purchased during the first three quarters of fiscal 2018.

Our single-tenant properties are subject to net leases which require the tenants to reimburse us for the cost of Real Estate Taxes as well as certain Operating Expenses such as insurance and the majority of repairs and maintenance. For the three months ended June 30, 2018 compared to the three months ended June 30, 2017, Reimbursement Revenue increased \$2,732,819, or 65%, Real Estate Tax Expense increased \$2,429,940, or 69%, and Operating Expenses increased \$405,365, or 38%. For the nine months ended June 30, 2018 compared to the nine months ended June 30, 2017, Reimbursement Revenue increased \$5,195,566, or 44%, Real Estate Tax Expense increased \$4,313,408, or 46%, and Operating Expenses increased \$735,168, or 20%. These increases in Reimbursement Revenue, Real Estate Taxes and Operating Expenses for the three and nine months ended June 30, 2018 were primarily due to our newly acquired properties. Reimbursement Revenue as a percentage of Real Estate Taxes and Operating Expenses for the three months ended June 30, 2018 has increased to 94% from 92% for the three months ended June 30, 2017. Reimbursement Revenue as a percentage of Real Estate Taxes and Operating Expenses for the nine months ended June 30, 2018 has increased to 95% from 91% for the nine months ended June 30, 2017.

General and Administrative Expenses increased \$100,870, or 6%, for the three months ended June 30, 2018 as compared to the three months ended June 30, 2017. General and Administrative Expenses increased \$744,938, or 14%, for the nine months ended June 30, 2018 as compared to the nine months ended June 30, 2017. The increase in both the three and nine months ended June 30, 2018 was primarily due to an increase in salaries and director fees which were due to a combination of increases in wage rates and head count of employees and a combination of increases in director fees and head count of directors. General and Administrative Expenses, as a percentage of gross revenue, (which includes Rental Revenue, Reimbursement Revenue and Dividend and Interest Income), decreased to 4.7% for the three months ended June 30, 2018 as compared to 5.9% for the three months ended June 30, 2017 and decreased to 5.4% for the nine months ended June 30, 2018 as compared to 6.1% for the nine months ended June 30, 2017. Annualized General and Administrative Expenses, as a percentage of undepreciated assets (which is our total assets excluding accumulated depreciation) decreased to 44 basis points from 51 basis points for the nine months ended June 30, 2018 and 2017, respectively.

There were no Acquisition Costs for the three months ended June 30, 2018 and 2017. Acquisition Costs amounted to \$-0- and \$178,526 for the nine months ended June 30, 2018 and 2017, respectively. As a result of adopting ASU 2017-01, prospectively as of April 1, 2017, as permitted under the standard, effective April 1, 2017, we no longer account for our property acquisitions as business combinations and instead we account for our property acquisitions as acquisitions of assets. In an acquisition of assets, certain acquisition costs are capitalized to real estate investments as part of the purchase price as opposed to being expensed as Acquisition Costs under the previous accounting treatment for business combinations. Therefore, subsequent to April 1, 2017, we no longer expense Acquisition Costs for our property acquisitions.

We recognized a Gain on Sale of Securities Transactions of \$0- and \$1,487,836 for the three months ended June 30, 2018 and 2017, respectively and recognized a Gain on Sale of Securities Transactions of \$111,387 and \$2,293,944 for the nine months ended June 30, 2018 and 2017, respectively. In addition, our unrealized holding gains (losses) on our investment in securities decreased from an unrealized gain of \$6,570,565 as of September 30, 2017 to an unrealized loss of \$8,368,968 as of June 30, 2018, resulting in a decrease for the nine months ended June 30, 2018 of \$14,939,533. We recognized dividend income on our investment in securities of \$3,625,002 and \$1,896,029 for the three months ended June 30, 2018 and 2017, respectively, representing an increase of 91%. We recognized dividend income on our investments in securities of \$9,373,467 and \$4,622,836 for the nine months ended June 30, 2018 and 2017, respectively, representing an increase of 103%. These increases are due to a higher average carrying value of the REIT securities portfolio during the current three and nine months period compared to the prior year three and nine months period. We held \$167,594,279 in marketable REIT securities as of June 30, 2018, representing 9.2% of our undepreciated assets. The REIT securities portfolio's weighted average yield for nine months ended June 30, 2018 was approximately 9.6% as compared to 7.1% for the nine months ended June 30, 2017.

Interest Expense, including Amortization of Financing Costs, increased \$2,143,943, or 35%, for the three months ended June 30, 2018 as compared to the three months ended June 30, 2017. Interest Expense, including Amortization of Financing Costs, increased \$4,804,692, or 26%, for the nine months ended June 30, 2018 as compared to the nine months ended June 30, 2017. This increase is primarily due to an increase in the average balance of Fixed Rate Mortgage Notes Payable due to the eight newly acquired properties purchased since July 1, 2017. The Fixed Rate Mortgage Notes Payable balance increased \$103,381,999 or 18% from June 30, 2017 to June 30, 2018. This increase was partially offset by a decrease of 10 basis points in the weighted average interest rate of the Fixed Rate Mortgage Notes Payable, which decreased from 4.21% at June 30, 2017 to 4.11% at June 30, 2018.

Changes in Financial Condition

We generated Net Cash from Operating Activities of \$63,093,990 and \$50,191,019 for the nine months ended June 30, 2018 and 2017, respectively.

Net Real Estate Investments increased \$147,727,579 from September 30, 2017 to June 30, 2018. This increase was mainly due to the purchase of five net-leased industrial properties, located in Charleston, SC; Oklahoma City, OK; Savannah, GA; Daytona Beach, FL; and Mobile, AL, totaling approximately 2,016,000 square feet, for approximately \$174,045,000 in the aggregate, of which approximately \$170,418,000 was allocated to Net Real Estate Investments. The increase was partially offset by Depreciation Expense for the nine months ended June 30, 2018 of \$26,504,609.

Securities Available for Sale increased \$43,829,509 from September 30, 2017 to June 30, 2018. The increase was due to the purchase of securities totaling \$61,277,604, offset by the sale of securities with a cost basis of \$2,508,562 and by a net decrease in Unrealized Holding Gain (Loss) of \$14,939,533. The securities sold during the nine month period resulted in realized gains totaling \$111,387.

Fixed Rate Mortgage Notes Payable, net of Unamortized Debt Issuance Costs (Mortgage Notes Payable), increased \$65,718,878 from September 30, 2017 to June 30, 2018. The increase was mostly due to the origination of five fixed-rate mortgages totaling \$105,600,000 obtained in connection with the five industrial properties purchased during the first three quarters of fiscal 2018. These five mortgage loans have an original weighted average loan maturity of 13.6 years and a weighted average interest rate of 3.89%. Details on these five fixed rate mortgages are as follows:

Table of Contents

<u>Property</u>	<u>Mortgage amount</u>	<u>Maturity Date</u>	<u>Interest Rate</u>
Charleston, SC	\$ 14,200,000	12/1/2032	4.23%
Oklahoma City, OK	19,600,000	12/1/2027	3.64%
Savannah, GA	33,300,000	02/1/2032	3.53%
Daytona Beach, FL	19,500,000	05/1/2033	4.25%
Mobile, AL	19,000,000	07/1/2032	4.14%

The increase in Mortgage Notes Payable was also partially due to the amortization of financing costs associated with the Mortgage Notes Payable of approximately \$629,000. This increase was partially offset by scheduled payments of principal of approximately \$39,444,000, which includes the full repayment of four mortgages associated with four properties located in Richfield (Cleveland), OH; Tampa, FL; Colorado Springs, CO and West Chester Twp. (Cincinnati), OH, totaling approximately \$8,649,000. In addition, the increase in Mortgage Notes Payable was partially offset by the addition of deferred financing costs of approximately \$1,066,000, of which approximately \$1,047,000 is associated with the five mortgages obtained in connection with the five industrial properties purchased during the first three quarters of fiscal 2018.

Excluding Debt Issuance Costs, the weighted average interest rate on the Fixed Rate Mortgage Notes Payable decreased by 10 basis points from the prior year quarter from 4.21% at June 30, 2017 to 4.11% at June 30, 2018.

We are scheduled to repay a total of approximately \$53,453,000 in mortgage principal payments over the next 12 months. We intend to make these principal payments from the funds generated from Cash from Operations, the DRIP, the At-The-Market Preferred Equity Program (Preferred Stock ATM Program) and draws from the unsecured line of credit facility.

Liquidity and Capital Resources

Net Cash Provided by Operating Activities was \$63,093,990 and \$50,191,019 for the nine months ended June 30, 2018 and 2017, respectively. Dividends paid on common stock for the nine months ended June 30, 2018 and 2017 were \$39,842,168 and \$34,311,041, respectively (of which \$9,467,085 and \$7,229,654, respectively, were reinvested). We pay dividends from cash generated from operations.

As of June 30, 2018, we held \$167,594,279 in marketable REIT securities, representing 9.2% of our undepreciated assets (which is our total assets excluding accumulated depreciation). We generally limit our marketable securities investments to no more than approximately 10% of our undepreciated assets. From time to time, we may purchase these securities on margin when the interest and dividend yields exceed the cost of funds. In general, we may borrow up to 50% of the value of the marketable securities. As of June 30, 2018, we had \$47,792,824 drawn against the margin. The marketable REIT securities portfolio provides us with additional liquidity, diversification and income, and serves as a proxy for real estate when more favorable risk adjusted returns are not available. As of June 30, 2018, we had net Unrealized Holding Losses on our portfolio of \$8,368,968 as compared to net Unrealized Holding Gains of \$6,570,565 as of September 30, 2017, representing a decrease of \$14,939,533. We recognized a Gain on Sale of Securities Transactions of \$0- and \$1,487,836 for the three months ended June 30, 2018 and 2017, respectively, and recognized a Gain on Sale of Securities Transactions of \$111,387 and \$2,293,944 for the nine months ended June 30, 2018 and 2017, respectively. We recognized dividend income on our investment in securities of \$3,625,002 and \$1,896,029 for the three months ended June 30, 2018 and 2017, respectively, representing an increase of 91%, and \$9,373,467 and \$4,622,836 for the nine months ended June 30, 2018 and 2017, respectively, representing an increase of 103%. The dividends received from our investments continue to meet our expectations.

As of June 30, 2018, we owned 109 properties, of which 60 carried mortgage loans with outstanding principal balances totaling \$665,118,463. The 49 unencumbered properties could be refinanced to raise additional funds, although covenants in our unsecured line of credit facility (the Facility) limit the amount of unencumbered properties that can be mortgaged. As of June 30, 2018, we have drawn down \$110,000,000 on the Facility, which had an interest rate of 3.79%. The Facility has total potential availability up to \$300,000,000, including the additional \$100,000,000 accordion feature. The Facility matures September 2020, with a one-year extension at our option.

Table of Contents

As of June 30, 2018, we had total assets of \$1,624,480,567 and liabilities of \$835,567,065. Our net debt (net of unamortized debt issuance costs and net of cash and cash equivalents) to total market capitalization as of June 30, 2018 was approximately 33% and our net debt, less marketable securities (net of unamortized debt issuance costs, net of cash and cash equivalents and net of marketable securities) to total market capitalization as of June 30, 2018 was approximately 26%. We believe that we have the ability to meet our obligations and to generate funds for new investments.

On June 29, 2017, we entered into the Preferred Stock ATM Program with B. Riley FBR, Inc. in which we may, from time to time, offer and sell additional shares of our 6.125% Series C Preferred Stock, with a liquidation preference of \$25.00 per share, having an aggregate sales price of up to \$100,000,000. We began selling shares through the Preferred Stock ATM Program on July 3, 2017. During the nine months ended June 30, 2018, we sold 1,260,016 shares under our Preferred Stock ATM Program at a weighted average price of \$25.08 per share, and realized net proceeds, after offering expenses, of approximately \$30,992,000.

During the nine months ended June 30, 2018, we paid \$39,842,168 in total cash dividends, or \$0.17 per share to common shareholders, of which \$9,467,085 was reinvested in the DRIP. On July 2, 2018, our Board of Directors declared a dividend of \$0.17 per common share to be paid on September 17, 2018 to common shareholders of record as of the close of business on August 15, 2018.

During the nine months ended June 30, 2018, we paid \$12,548,850 in Preferred Dividends, or \$1.1484375 per share, on our outstanding 6.125% Series C Preferred Stock for the period September 1, 2017 through May 31, 2018. As of June 30, 2018, we have accrued Preferred Dividends of \$1,416,337 covering the period June 1, 2018 to June 30, 2018. Dividends on the 6.125% Series C Preferred Stock are cumulative and payable quarterly at an annual rate of \$1.53125 per share. On July 2, 2018, our Board of Directors declared a dividend of \$0.3828125 per share to be paid September 17, 2018 to the 6.125% Series C Preferred shareholders of record as of the close of business on August 15, 2018.

We use a variety of sources to fund our cash needs in addition to cash generated from operations. We may sell marketable securities from our investment portfolio, borrow on our unsecured line of credit facility or securities margin loans, refinance debt, or raise capital through the DRIP, the Preferred Stock ATM Program or capital markets.

We have been raising capital through our DRIP, the Preferred Stock ATM Program, mortgage loans, draws on our unsecured line of credit, sale of marketable securities and funds generated from our investments in net-leased industrial properties. We may raise capital through registered direct placements and public offerings of common and preferred stock. We believe that funds generated from operations, from the DRIP, from the Preferred Stock ATM Program, as well as our ability to finance and refinance our properties, and our availability under our unsecured line of credit, will provide sufficient funds to adequately meet our obligations over the next year.

We have a concentration of FDX and FDX subsidiary-leased properties, consisting of 58 separate stand-alone leases covering approximately 9,444,000 square feet as of June 30, 2018 and 58 separate stand-alone leases covering approximately 9,124,000 square feet as of June 30, 2017. As of June 30, 2018, the 58 separate stand-alone leases that are leased to FDX and FDX subsidiaries have a weighted average lease maturity of 8.6 years. The percentage of FDX and its subsidiaries leased square footage to the total of our rental space was 46% (7% to FDX and 39% to FDX subsidiaries) as of June 30, 2018 and 51% (8% to FDX and 43% to FDX subsidiaries) as of June 30, 2017. As of June 30, 2018, no other tenant accounted for 5% or more of our total rental space.

Table of Contents

Annualized Rental and Reimbursement Revenue from FDX and its subsidiaries is estimated to be approximately 56% (7% to FDX and 49% to FDX subsidiaries) of total Rental and Reimbursement Revenue for fiscal 2018 and was 60% (7% to FDX and 53% to FDX subsidiaries) of total Rental and Reimbursement Revenue for fiscal 2017. No other tenant accounted for 5% or more of our total Rental and Reimbursement Revenue for the nine months ended June 30, 2018 and 2017.

FDX is a publicly-owned company and financial information related to this entity is available at the SEC's website, www.sec.gov. FDX is rated "BBB" by S&P Global Ratings (www.standardandpoors.com) and is rated "Baa2" by Moody's (www.moody.com), which are both considered "Investment Grade" ratings. The references in this report to the SEC's website, S&P Global Ratings' website and Moody's website are not intended to and do not include, or incorporate by reference into this report, the information of FDX, S&P Global Ratings or Moody's on such websites.

In addition to real estate property holdings, we held \$167,594,279 in marketable REIT securities at June 30, 2018, representing 9.2% of our undepreciated assets (which is our total assets excluding accumulated depreciation). These liquid real estate holdings are not included in calculating the tenant concentration ratios above and therefore further enhance our diversification. The securities portfolio provides us with additional liquidity, diversification and income and serves as a proxy for real estate when more favorable risk adjusted returns are not available.

The Company has entered into agreements to purchase four new build-to-suit, industrial buildings that have recently been completed or are currently being developed in Georgia, New Jersey and South Carolina, consisting of approximately 1,105,000 square feet, with net-leased terms ranging from 10 to 15 years, with a weighted average lease term of 13.9 years. The purchase price for these properties is approximately \$221,369,000. These four properties are each leased to FedEx Ground Package System, Inc. Subject to satisfactory due diligence and other customary closing conditions and requirements, we anticipate closing these transactions sometime during the remainder of fiscal 2018 and the first quarter of fiscal 2019. In connection with all four of these properties, we have entered into commitments to obtain four, 15 year, fully-amortizing mortgage loans totaling \$142,060,000 with a weighted average fixed interest rate of 4.07%.

We currently have two property expansions in progress consisting of one 154,800 square foot building expansion and one parking lot expansion. Total expansion costs are expected to be approximately \$10,906,000. Upon completion of the two expansions, initial annual rent will be increased by approximately \$1,045,000. One expansion will provide for a new 10 year lease extension from the date of completion and one expansion will provide for a new 15 year lease extension from the date of completion.

We intend to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants or their subsidiaries, and, when needed, expand our current properties. The funds may come from free cash flow from operations, mortgage loans, draws on our unsecured line of credit, cash on hand, sale of marketable securities, other bank borrowings, proceeds from the DRIP, proceeds from the Preferred Stock ATM Program, private placements and public offerings of additional common or preferred stock or other securities. To the extent that funds or appropriate properties are not available, fewer acquisitions will be made.

Off-Balance Sheet Arrangements

We do not have any material off-balance sheet arrangements.

Funds From Operations, Core Funds From Operations and Adjusted Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by the National Association of Real Estate Investment Trusts (NAREIT), represents net income attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (U.S. GAAP), excluding extraordinary items, as defined under U.S. GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-GAAP supplemental measure of REIT operating performance. We define Core Funds From Operations (Core FFO) as FFO, excluding acquisition costs and costs associated with the Redemption of Preferred Stock. We define Adjusted Funds From Operations (AFFO) as Core FFO, excluding stock based compensation expense, depreciation of corporate office tenant improvements, amortization of deferred financing costs, lease termination income, net gain or loss on sale of securities transactions, effect of non-cash U.S. GAAP straight-line rent adjustments, non-recurring other expenses and less recurring capital expenditures. We define recurring capital expenditures as all capital expenditures that are recurring in nature, excluding capital expenditures related to expansions at our current locations or capital expenditures that are incurred in conjunction with obtaining a new lease or a lease renewal. We believe that, as widely recognized measures of performance used by other REITs, FFO, Core FFO and AFFO may be considered by investors as supplemental measures to compare our operating performance to those of other REITs. FFO, Core FFO and AFFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. However, other REITs may use different methodologies to calculate FFO, Core FFO and AFFO and, accordingly, our FFO, Core FFO and AFFO may not be comparable to all other REITs. The items excluded from FFO, Core FFO and AFFO are significant components in understanding our financial performance.

FFO, Core FFO and AFFO are non-GAAP performance measures and (i) do not represent Cash Flow from Operations as defined by U.S. GAAP; (ii) should not be considered as an alternative to Net Income or Net Income Attributable to Common Shareholders as a measure of operating performance or to Cash Flows from Operating, Investing and Financing Activities; and (iii) are not an alternative to Cash Flows from Operating, Investing and Financing Activities as a measure of liquidity. FFO, Core FFO and AFFO, as calculated by us, may not be comparable to similarly titled measures reported by other REITs.

Forward-Looking Statements

This quarterly report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements provide our current expectations or forecasts of future events. Forward-looking statements include statements about our expectations, beliefs, intentions, plans, objectives, goals, strategies, future events, performance and underlying assumptions and other statements that are not historical facts. Forward-looking statements can be identified by their use of forward-looking words, such as “may,” “will,” “anticipate,” “expect,” “believe,” “intend,” “plan,” “should,” “seek” or comparable terms, or the negative use of those words, but the absence of these words does not necessarily mean that a statement is not forward-looking.

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. Forward-looking statements are not predictions of future events. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these factors are described below and are described under the above heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations” above and the headings “Business”, “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017. These and other risks, uncertainties and factors could cause our actual results to differ materially from those included in any forward-looking statements we make. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Important factors that could cause actual results to differ materially from our expectations include, among others:

- the ability of our tenants to make payments under their respective leases;
- our reliance on certain major tenants;
- our ability to re-lease properties that are currently vacant or that become vacant;
- our ability to obtain suitable tenants for our properties;
- changes in real estate market conditions, economic conditions in the industrial sector and the market in which our properties are located and general economic conditions;
- the inherent risks associated with owning real estate, including local real estate market conditions, governing laws and regulations and illiquidity of real estate investments;
- our ability to acquire, finance and sell properties on attractive terms;
- our ability to repay debt financing obligations;
- our ability to refinance amounts outstanding under our mortgages and credit facilities at maturity on terms favorable to us, or at all;
- the loss of any member of our management team;
- our ability to comply with debt covenants;
- our ability to integrate acquired properties and operations into existing operations;
- continued availability of proceeds from issuances of our debt or equity securities;
- the availability of other debt and equity financing alternatives;
- market conditions affecting our investment in marketable securities of other REIT’s;
- changes in interest rates under our current credit facility and under any additional variable rate debt arrangements that we may enter into in the future;
- our ability to successfully implement our selective acquisition strategy;

Table of Contents

- our ability to maintain internal controls and procedures to ensure all transactions are accounted for properly, all relevant disclosures and filings are timely made in accordance with all rules and regulations, and any potential fraud or embezzlement is thwarted or detected;
- changes in federal or state tax rules or regulations that could have adverse tax consequences;
- declines in the market prices of our investment securities; and
- our ability to qualify as a REIT for federal income tax purposes.

You should not place undue reliance on these forward-looking statements, as events described or implied in such statements may not occur. We undertake no obligation to update or revise any forward-looking statements as a result of new information, future events or otherwise.
